

Gulf Hotels Group B.S.C.

**REPORT OF THE BOARD OF DIRECTORS,
INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS
AND CONSOLIDATED FINANCIAL STATEMENTS**

31 DECEMBER 2017

MARKET TREND AND COMPARATIVE PERFORMANCE

Trading conditions in the hospitality industry in 2017 were particularly difficult as the market experienced a drop in both occupancy levels and room rates, resulting in a double digit drop in the Revenue Per Available Room (REVPAR), as a result of a substantial over-supply of hotel rooms due to a considerable number of hotel openings during the year. Profitability is further affected by significant increases in costs such as utilities, although recent changes in duties will help the restaurant business but the positive impact of change in duties could be wiped out once VAT is introduced.

The retail sector also saw a drop compared to last year as a result of high import duties although the market is expected to bounce back after the recent duty changes.

Gulf Hotel (GH)

Despite increased competition from a number of new hotel openings in 2017, the Gulf Hotel continues to lead the 5-star market and achieved 3.57% above its competitive set fair market share. The Hotel sold 67,776 room nights for the year which was largest number in the 5-star market however, this was marginally behind last year.

The Hotel's F&B outlets, which once again enjoyed numerous nominations and awards during 2017, including the 'Best Restaurant in Bahrain' for the Hotel's Rasoi by Vineet restaurant, continued to play a leading role in Bahrain's ever expanding dining market. The Hotel's F&B operation served 419,348 covers during the year which was by far the highest in the 5-star market.

The Gulf Convention Centre's revenues continue to be affected by the limited number of international conferences however plans are underway to refurbish the venue to meet future anticipated demand.

We were proud that the Gulf Spa was awarded 'The Best New Spa' in a recent award ceremony. In addition to the extensive spa operation, the building features a Ladies Hair and Beauty Salon.

I am also pleased to announce that the Gulf Hotel has recently been appointed as the official caterer for Bahrain International Circuit.

Gulf Executive Residence (GER)

GER occupancy and room average rate were affected by the market supply which led to drop in occupancy and average room rate as compared to last year.

Gulf Executive Offices (GEO)

In spite of the highly competitive nature of the office rental market, we managed to reach occupancy levels of 85% in the GEO.

Gulf Brands International (GBI)

GHG's retail business saw a drop compared to last year. Increase in duties affected GBI operation.

Gulf Hotel Laundry Services (GHLS)

The commercial laundry operation, opened in early 2014, has now established itself and has been successful in acquiring a number of prestigious contracts which led to better performance when compared to last year.

Bahrain Tourism Company (BTC)

During 2016, GHG acquired 100% shares of BTC which owns the Crowne Plaza Hotel, by share swap offer. The additional room inventory of 246 five star rooms increases GHG market share and also adds the Bahrain Conference Centre to the Group's portfolio.

Bahrain Family Leisure Company (BFLC)

The Gulf Hotels Group holds a 28.05% stake in BFLC, who operate a number of restaurants in Bahrain. The company's established outlets Bennigan's and Cucina continue to improve their performance and both received nominations and awards in 2017, reflecting the efforts of the management to continue to improve these outlets. Also the company has plans to increase its portfolio in the Kingdom and it's already started with the opening of a new branch of Bennigan's in Amwaj.

Ocean Paradise Resort, Zanzibar

GHG is both a shareholder and the operator of this 98 room, African themed resort on the North East Coast of Zanzibar.

The resort enjoyed strong occupancies for most of the year resulting in a third successive year of profit growth.

The K Hotel

The 237 bedroom, 4-star deluxe Hotel is owned by Mokan WLL and operated by Gulf Hotels Group.

The K Hotel cemented its position as the leading 4-star deluxe hotel in Bahrain, recording high occupancy levels and a strong average rate compared to other four star hotels in Bahrain.

Asdal Gulf Inn

The 89 bedroom, 4-star boutique property is located in the Seef district and is owned by the Asdal Group and operated by Gulf Hotels Group.

The hotel continues to improve its performance in a highly competitive market and is renowned for its spacious and comfortable rooms and sophisticated ambiance.

RESULTS

- Combined Gross Operating Revenue including BTC amounted to BD 37,261,496.
- Combined Gross Operating Profit including BTC amounted to BD 13,355,621.
- Combined Net Profit including BTC amounted to BD 11,036,015.

PROPOSED APPROPRIATIONS

Taking into account the results achieved by the company and keeping in mind the company's capital requirements for continued upgrading of the facilities, and future expansion to outside the country your Directors are pleased to recommend for the approval of shareholders the following appropriations:

- Dividend of 30 % (BD 6,776,623) equal to BD 0.030 per share;
- Directors fees of BD 261,250;
- Allocations toward the provision for Charity and Academic Research and National Promotional Institutions of BD 213,778 and BD 10,000 respectively.

FUTURE PROSPECTS

Construction of the 108-unit Gulf Executive Residence Juffair is expected to be completed in Q3 2018.

Gulf Hotels Group has already purchased piece of land in Block 338 in Adliya Tourism Zone to develop a multi-unit restaurant complex.

During the summer the Group will undertake a complete renovation of the Gulf Convention Centre as well as upgrading the Gulf Hotel's Al Waha, La Pergola, Sherlock Holmes and Fusions outlets. La Pergola will re-open under the guidance of Chef Giancarlo Perbellini who currently holds three Michelin stars.

The first phase of the renovation of the Group's Crowne Plaza Hotel has now been completed and phase 2 will commence during the summer.

The group has recently incorporated a company in Sri Lanka in order to start a retailing operation and is progressing with plans to enter the Dubai hotel market.

BOARD OF DIRECTORS

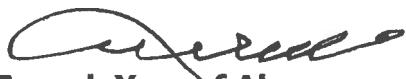

I would like to take this opportunity to thank Mr. Aqeel Raees who stepped down as a Director of the Board during 2017 for his contribution towards the success of Gulf Hotels Group during his tenure.

ACKNOWLEDGEMENTS

On behalf of the shareholders of Gulf Hotels Group BSC, the Board of Directors would like to express our sincere gratitude and appreciation to H.M. King Hamad Bin Isa Al Khalifa, H.R.H. Prince Khalifa Bin Salman Al Khalifa, the Prime Minister, H.R.H. Prince Salman Bin Hamad Al Khalifa, the Crown Prince and Commander in Chief of the Bahrain Defence Force, the Ministers, Undersecretaries, Directors and Heads of Government Departments, for the immeasurable interest, guidance and encouragement accorded to Gulf Hotels Group BSC. The same sentiments are also extended to our clients, patrons and most of all, the people of Bahrain. We thank you for your continued support, trust and confidence as we strive for progress.

The success of the Company in a very challenging year would not have been possible without the hard work and dedication of the Company's management and staff. The Board of Directors join me in extending our appreciation to the entire Gulf Hotels Group Management Team under the guidance of Garfield Jones (Chief Executive Officer), Ron Peters (Deputy Chief Executive Officer), Suresh Surana (Chief Financial Officer) Nils Axing (Director of Operations) and the remainder of the Gulf Hotels Group team. We also thank the management and staff of the Gulf Hotel, Gulf Brands International, Gulf Hotels Laundry Services, the K Hotel, Asdal Gulf Inn and Ocean Paradise Resort together with everyone who has done their part in producing the best possible results in challenging conditions. We are privileged to have such a committed and capable team and are confident that this team will continue to produce the best possible results in 2018.

Farouk Yousuf Almoayyed
Chairman of the Board

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF GULF HOTELS GROUP B.S.C.

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Gulf Hotels Group B.S.C. ("the Company") and its subsidiaries (together "the Group"), which comprise the consolidated statement of financial position as at 31 December 2017, and the consolidated statements of income, comprehensive income, changes in equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2017, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended 31 December 2017. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF GULF HOTELS GROUP B.S.C.

Report on the Audit of the Consolidated Financial Statements (continued)

Key audit matter (continued)

Estimates relating to impairment testing of property, plant and equipment	
Key audit matter / risk	How the key audit matter was addressed in the audit
<p>As at 31 December 2017, the Group has a plot of freehold land in Dubai amounting to BD 8.2 million and related capital work in progress of BD 1 million (the "Project") that in total represents 8% of the Group's total assets.</p> <p>We assessed that the impairment assessment to the carrying value of the Project was significant to our audit due to its magnitude and reliance placed on a third party to determine the fair value.</p>	<p>On 15 May 2017, the Group engaged the service of an independent appraiser to determine any possible impairment of the Project.</p> <p>Based on the valuation, the net present value of the Project is BD 10 million.</p> <p>Our procedures in relation to the fair value assessment of freehold land included, among others:</p> <ul style="list-style-type: none">• Evaluation of the independent external appraiser's objectivity, independence and expertise; and• Assessment of the methodology, key assumptions and methods used by management and external appraiser in the valuation process.

Other information included in the Group's 2017 Annual Report

Other information consists of the information included in the Group's 2017 Annual Report, other than the consolidated financial statements and our auditor's report thereon. The Chairman and the Board of Directors are responsible for the other information. Prior to the date of this auditors' report, we obtained the Chairman's Report which forms part of the annual report, and the remaining sections of the annual report are expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF GULF HOTELS GROUP B.S.C. (continued)

Report on the Audit of the Consolidated Financial Statements (continued)

Other information included in the Company's 2017 annual report (continued)

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of the auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors for the consolidated financial statements

The Board of Directors is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs and for such internal control as the Board of Directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Board of Directors is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Building a better
working world

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF GULF HOTELS GROUP B.S.C. (continued)

Report on the Audit of the Consolidated Financial Statements (continued)

Auditor's responsibilities for the audit of the consolidated financial statements (continued)

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF GULF HOTELS GROUP B.S.C. (continued)

Report on the Audit of the Consolidated Financial Statements (continued)

Auditor's responsibilities for the audit of the consolidated financial statements (continued)

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

We report that:

- a) as required by the Bahrain Commercial Companies Law:
 - i. the Company has maintained proper accounting records and the consolidated financial statements are in agreement therewith;
 - ii. the financial information contained in the Chairman's Report is consistent with the consolidated financial statements; and
 - iii. satisfactory explanations and information have been provided to us by Management in response to all our requests; and
- b) we are not aware of any violations of the Bahrain Commercial Companies Law, the Central Bank of Bahrain (CBB) Rule Book (applicable provisions of Volume 6) and CBB directives, regulations and associated resolutions, rules and procedures of the Bahrain Bourse or the terms of the Company's memorandum and articles of association during the year ended 31 December 2017 that might have had a material adverse effect on the business of the Company or on its consolidated financial position.

The partner in charge of the audit resulting in this independent auditor's report is Nader Rahimi.

Gulf Hotels Group B.S.C.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2017

1 GROUP INFORMATION

Gulf Hotels Group B.S.C. ("the Company") is a public joint stock company incorporated in the Kingdom of Bahrain and registered with the Ministry of Industry, Commerce and Tourism under commercial registration (CR) number 950. The postal address of the Company's registered head office is at P O Box 580, Manama, Kingdom of Bahrain.

The Group owns and operates the Gulf Hotel, Gulf Executive Residence, the Gulf Convention Centre, Gulf Executive Offices and Gulf Brands International in the Kingdom of Bahrain and provides other catering facilities. It also provides management services to The K Hotel, Gulf Court Manama, Asdal Gulf-inn Seef and Gulf Residence Amwaj, Kingdom of Bahrain, and to Ocean Paradise Resort, Zanzibar, Republic of Tanzania.

On 31 May 2016, the Company acquired a 100% stake in Bahrain Tourism Company B.S.C. ("BTC"), a company established in the Kingdom of Bahrain, through an exchange of shares as explained in more detail in note 7. BTC's major undertaking is the Crowne Plaza Bahrain Hotel. BTC also owns and operates Bahrain Tourism Company travel division. It also has a 33% interest in African & Eastern (Bahrain) W.L.L.

During the reporting year, BTC changed its legal status from Bahrain Tourism Company B.S.C. to Bahrain Tourism Company - Crowne Plaza Bahrain S.P.C.

Information on the Group's structure is provided below. Information on related party relationships of the Group is provided in note 27.

Name of the subsidiary	Ownership interest	Date of incorporation	Activities
Gulf Hotels Management Company S.P.C.	100%	4 December 2002	Managing hotels and restaurants and providing catering services for aircraft, ships, government organisations and companies.
Hospitality Resources S.P.C.	100%	12 August 2010	Import, export and sales of commercial and household kitchen equipment and interior designing contracts.
Gulf Hotel Laundry Services S.P.C.	100%	1 February 2014	Provision of automatic laundry services.
Bahrain Tourism Company - Crowne Plaza Bahrain S.P.C.	100%	31 May 2016	Building and investing in hotels and other tourism projects.
GH Gulf Investments Limited	100%	30 May 2016	Commercial enterprises investment, institution, investment and establishing commercial, industrial and agricultural projects and development of projects, general trading activities and any other activities.

Gulf Hotels Group B.S.C.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2017

1 GROUP INFORMATION (continued)

Name of associate	Ownership interest	Country of incorporation	Activities
Bahrain Family Leisure Company B.S.C. (BFLC)	28.06%	Kingdom of Bahrain	Primarily involved in operating restaurants, providing services related to family entertainment, supply of amusement related equipment and investing in businesses with similar objectives to those of BFLC.
African and Eastern (Bahrain) W.L.L. (A&E)	33.33%	Kingdom of Bahrain	Investment in bonds and shares as well as importing and selling consumer products.

The consolidated financial statements of Gulf Hotels Group B.S.C. and its subsidiaries (collectively, the Group) for the year ended 31 December 2017 were authorised for issue in accordance with a resolution of the Board of Directors on 18 February 2018.

2 BASIS OF PREPARATION

The consolidated financial statements of the Group have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB) and in conformity with the Bahrain Commercial Companies Law, the Central Bank of Bahrain (CBB) Rule Book (applicable provisions of Volume 6) and CBB directives, regulations and associated resolutions, rules and procedures of the Bahrain Bourse.

The consolidated financial statements are prepared under the historical cost basis, except for investments that have been measured at fair value.

The consolidated financial statements have been presented in Bahraini Dinars, being the functional and presentational currency of the Group.

3 BASIS OF CONSOLIDATION

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at 31 December 2017 (collectively referred to as the "Group"). Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- a) Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- b) Exposure, or rights, to variable returns from its involvement with the investee; and
- c) The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- a) The contractual arrangement with the other vote holders of the investee;
- b) Rights arising from other contractual arrangements; and
- c) The Group's voting rights and potential voting rights.

3 BASIS OF CONSOLIDATION (continued)

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity while any resultant gain or loss is recognised in consolidated statement of comprehensive income. Any investment retained is recognised at fair value.

4 SIGNIFICANT ACCOUNTING POLICIES

New and amended standards and interpretations effective as of 1 January 2017

The accounting policies adopted are consistent with those of the previous financial year, except for the following IASB's new and amended standards and interpretations which are effective as of 1 January 2017. The adoption of these standards and interpretations did not have any effect on the Group's financial position, financial performance or disclosures.

IAS 7 *Amendments to IAS 7 Statement of Cash Flows: Disclosure Initiative - The amendments require entities to provide disclosure of changes in their liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes (such as foreign exchange gains or losses).*

IAS 12 *Amendments to IAS 12 Income Taxes: Recognition of Deferred Tax Assets for Unrealised Losses - The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of deductible temporary difference related to unrealised losses. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount.*

Annual Improvements Cycle - 2014-2016

IFRS 12 *Amendments to IFRS 12 Disclosure of Interests in Other Entities: Clarification of the scope of disclosure requirements in IFRS 12 - The amendments clarify that the disclosure requirements in IFRS 12 apply to an entity's interest in a subsidiary, a joint venture or an associate (or a portion of its interest in a joint venture or an associate) that is classified (or included in a disposal group that is classified) as held for sale.*

Business combinations

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at acquisition date fair value, and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

4 SIGNIFICANT ACCOUNTING POLICIES (continued)

Business combinations (continued)

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Contingent consideration, resulting from business combinations, is valued at fair value at the acquisition date as part of the business combination. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of IAS 39, is remeasured at each reporting date, at fair value with the changes in fair value recognised in the consolidated statement of income.

Goodwill is initially measured at cost (being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests) and any previous interest held over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in the consolidated statement of income as "gain on bargain purchase".

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill has been allocated to a cash-generating unit (CGU) and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

A contingent liability recognised in a business combination is initially measured at its fair value. Subsequently, it is measured at the higher of the amount that would be recognised in accordance with the requirements for provisions or the amount initially recognised less (when appropriate) cumulative amortisation recognised in accordance with the requirements for revenue recognition.

Current versus non-current classification

The Group presents assets and liabilities in the consolidated statement of financial position based on a current/non-current classification. An asset is classified as current when it is:

- Expected to be realised or intended to be sold or consumed in a normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

4 SIGNIFICANT ACCOUNTING POLICIES (continued)

Current versus non-current classification (continued)

A liability is classified as current when:

- It is expected to be settled in a normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- a) In the principal market for the asset or liability; or
- b) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- a) Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- b) Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- c) Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of fair value hierarchy as explained above.

4 SIGNIFICANT ACCOUNTING POLICIES (continued)

Property, plant and equipment

Property, plant and equipment is stated at cost less accumulated depreciation and any impairment in value. Such cost includes the cost of replacing part of the property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciation, respectively. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the property, plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the consolidated statement of income as incurred. Land and capital work in progress are not depreciated.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the property, plant and equipment as follows:

- Buildings on freehold land	- original structure	40 years.
	- subsequent improvements	Over the remaining life of the buildings they relate to, or earlier, as appropriate.
- Furniture, fittings and office equipment		2 to 7 years.
- Plant, equipment and motor vehicles		2 to 10 years.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of income when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Investment properties

Investment properties, which are held to earn rentals or for capital appreciation, are measured at cost, including transaction costs, less accumulated depreciation and accumulated impairment, if any. The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met; and excludes the costs of day to day servicing of an investment property.

The depreciation charge on investment properties is calculated on a straight line basis over the estimated useful lives.

Investment properties are derecognised when either they have been disposed off or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in the consolidated statement of comprehensive income in the period of derecognition.

Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for on weighted average cost on a first in, first out basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

4 SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment in associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The considerations made in determining significant influence are similar to those necessary to determine control over subsidiaries.

The Group's investment in associates is accounted for using the equity method.

Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment.

The consolidated statement of income reflects the Group's share of the results of operations of the associates. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associates, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associates are eliminated to the extent of the interest in the associates.

The financial statements of the associates are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in associates. At each reporting date, the Group determines whether there is objective evidence that an investment in associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, then recognises the loss as 'Share of loss from an associate' in the consolidated statement of income.

Upon loss of significant influence over an associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognised in consolidated statement of income.

Impairment of non-financial assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

4 SIGNIFICANT ACCOUNTING POLICIES (continued)

Impairment of non-financial assets (continued)

The Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the consolidated statement of income in expense categories consistent with the function of the impaired asset.

Financial instruments – initial recognition and subsequent measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as financial assets at fair value through profit or loss, loans and receivables or available-for-sale investments, as appropriate. All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading and financial assets designated upon initial recognition at fair value through profit or loss. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments as defined by IAS 39. The Group has not designated any financial assets at fair value through profit or loss. Financial assets at fair value through profit and loss are carried in the consolidated statement of financial position at fair value with gains or losses recognised in the consolidated statement of income.

Loans and receivables

This category is the most relevant to the Group. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method, less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. Gains and losses are recognised in the consolidated statement of income when the loans and receivables are derecognised or impaired, as well as through the amortisation process. Bad debts are written off in the consolidated financial statements when identified.

This category generally applies to trade and other receivables. For more information on receivables, refer to note 13.

4 SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial assets (continued)

Subsequent measurement (continued)

Available-for-sale (AFS) investments

AFS financial investments include equity investments and debt securities. Equity investments classified as AFS are those that are neither classified as held for trading nor designated at fair value through profit or loss. Debt securities in this category are those that are intended to be held for an indefinite period of time and that may be sold in response to needs for liquidity or in response to changes in the market conditions. The Group's AFS investments only includes equity investments.

After initial measurement, available-for-sale financial investments are subsequently measured at fair value with unrealised gains or losses recognised as other comprehensive income in the available-for-sale reserve until the investment is derecognised, at which time the cumulative gain or loss is recognised in other operating income, or determined to be impaired, at which time the cumulative loss is reclassified to the consolidated statement of income and removed from the available-for-sale reserve.

Cash and cash equivalents

Cash and bank balances in the consolidated statement of financial position comprise cash at banks and on hand and term deposits. For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits with original maturity of three months or less, net of restricted cash, if any.

Impairment and uncollectability of financial assets

The Group assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the debtor or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

An assessment is made at each reporting date to determine whether there is objective evidence that a specific financial asset may be impaired. If such evidence exists, any impairment loss is recognised in the consolidated statement of income. Impairment is determined as follows:

- a) For assets carried at fair value, impairment is the difference between cost and fair value, less any impairment loss previously recognised in the consolidated statement of income;
- b) For assets carried at cost, impairment is the difference between carrying value and the present value of future cash flows discounted at the current market rate of return for a similar financial asset; and
- c) For assets carried at amortised cost, impairment is the difference between carrying amount and the present value of future cash flows discounted at the original effective interest rate.

4 SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

Financial liabilities are recognised initially at fair value and in the case of loans and borrowings, net of directly attributable transaction costs.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way purchases) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

The Group's financial liabilities comprise of trade and other payables.

Subsequent measurement

The measurement of financial liabilities depends on their classification as follows:

Trade and other payables

Trade and other payables are carried at cost, which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the Group.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Amortised cost of financial instruments

Amortised cost is computed using the effective interest method less any allowance for impairment and principal repayment or reduction. The calculation takes into account any premium or discount on acquisition and includes transaction costs and fees that are an integral part of the effective interest rate.

Derecognition of financial instruments

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either
 - (a) the Group has transferred substantially all the risks and rewards of the asset, or
 - (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in consolidated statement of comprehensive income.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or has expired.

4 SIGNIFICANT ACCOUNTING POLICIES (continued)

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the consolidated statement of income net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Employees' end of service benefits

The Group makes contributions to the Social Insurance Organisation scheme for its national employees calculated as a percentage of the employees' salaries. The Group's obligations are limited to these contributions, which are expensed when due.

The Group also provides for end of service benefits to its expatriate employees. The entitlement to these benefits is based upon the employees' final salaries and length of service. The expected costs of these benefits are accrued over the period of employment.

Treasury shares

Own equity instruments that are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognised in share premium.

Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty. The Group assesses its revenue arrangements against specific criteria in order to determine if it is acting as a principal or an agent. The Group has concluded that it is acting as a principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements, has pricing latitude and is also exposed to inventory and credit risks.

The following specific recognition criteria must also be met before revenue is recognised:

Rendering of services

Revenue from the rendering of services is recognised when services are performed, provided that the amount can be measured reliably.

Sale of goods

Revenue from the sale of goods is recognised on the transfer of significant risks and rewards of ownership, which generally coincides with the time when the goods are delivered to customers and title has passed.

Management fees

Management fees are recognised when earned as determined by the management agreement.

Rental income

The Group operates executive offices which are leased on a commercial basis. Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms and included in other income as rental income.

Gulf Hotels Group B.S.C.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2017

4 SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue recognition (continued)

Interest income

Interest income is recorded using the effective interest rate (EIR) method. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset or liability.

Dividend income

Revenue is recognised when the Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

Foreign currency transactions

The Group's consolidated financial statements are presented in Bahraini Dinars (BD), which is also the Group's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Group entities at their respective functional currency rates prevailing at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency spot rate of exchange ruling at the reporting date.

All differences are taken to the consolidated statement of income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

5 STANDARDS ISSUED BUT NOT YET EFFECTIVE

Standards issued but not yet effective up to the date of the issuance of Group's consolidated financial statements are listed below. This listing is of standards and interpretations issued, which the Group reasonably expects to be applicable at a future date. The Group intends to adopt those standards (where applicable) when they become effective:

- IAS 40 *Transfers of Investment Property* (effective for annual periods beginning on or after 1 January 2018);
- IFRS 9 *Financial Instruments: Guidance on classification and measurement, impairment and hedge accounting* (effective for annual periods beginning on or after 1 January 2018);
- IFRS 15 *Revenue from Contracts with Customers: Guidance on performance obligations, variable consideration, warranty obligations, loyalty points program, rendering of services and equipment received from customers* (effective for annual periods beginning on or after 1 January 2018);
- IFRS 10 *Consolidated Financial Statements and Investment in Associates and Joint Ventures* and IAS 28 (Amendments): *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture* (effective date is not decided);
- IFRS 2 *Share-based Payment Transactions: Classification and Measurement of Share-based Payment* (Amendments) (effective for annual periods beginning on or after 1 January 2018). Early application is permitted;
- IFRS 16 *Leases - Revised guidance on single model accounting for leases* (effective for annual periods beginning on or after 1 January 2019, with earlier adoption permitted if IFRS 15 'Revenue from Contracts with Customers' has also been applied);

5 STANDARDS ISSUED BUT NOT YET EFFECTIVE (continued)

IFRS 17 Insurance Contracts: The standard covers recognition and measurement, presentation and disclosure. Once effective, IFRS 17 will replace IFRS 4 Insurance Contracts, that was issued in 2005 (effective for annual periods beginning on or after 1 January 2021);

IFRS 9 and IFRS 4 Applying IFRS 9 Financial Instruments with IFRS 4 Insurance Contracts - Amendments to IFRS 4 (effective for annual periods beginning on or after 1 January 2018);

IFRIC 22 Foreign Currency: Transactions and Advance Consideration (effective for annual periods beginning on or after 1 January 2018); and

IFRIC 23 Uncertainty over income tax treatment: (effective for annual periods beginning on or after 1 January 2019).

Annual Improvements 2014-2016 Cycle

IFRS 1 First-time Adoption of International Financial Reporting Standards: Deletion of short-term exemptions for first-time adopters (effective from 1 January 2018); and

IAS 28 Investments in Associates and Joint Ventures: Clarification that measuring investees at fair value through profit or loss is an investment-by-investment choice (the amendments should be applied retrospectively and are effective from 1 January 2018, with earlier application permitted).

The Group is currently assessing the impact of the following standards on its consolidated financial statements:

IFRS 9 Financial Instruments

The adoption of IFRS 9 will have an impact on the classification and measurement of the Group's financial assets, but no impact on the classification and measurement of the Group's financial liabilities. Moreover, the Group expects no significant impact in the allowance for trade receivables. This assessment is based on currently available information and may be subject to changes arising from further reasonable and supportable information being made available to the Group in 2018 when the Group will adopt IFRS 9.

IFRS 15 Revenue from Contracts with Customers

The core principle of IFRS 15 is that an entity recognises revenue related to the transfer of promised goods or services when control of the goods or services passes to the customers. The amount of revenue recognised should reflect the consideration to which the entity expects to be entitled in exchange for those goods.

During 2017, the Group performed a preliminary assessment of IFRS 15, which is subject to changes arising from a more detailed analysis. Overall, the Group expects no significant impact on its consolidated financial statements.

Other standards and interpretations that have been issued but not yet effective are not likely to have any significant impact on the consolidated financial statements of the Group in the period of their initial application.

6 SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Group's consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the assets or liabilities affected in future periods.

6 SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS (continued)

Judgments

In the process of applying the Group's accounting policies, the Board of Directors and management has made the following judgments, which have the most significant effect in the amounts recognised in the consolidated financial statements:

Going concern

The Board of Directors of the Company has made an assessment of the Group's ability to continue as a going concern and is satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, the Board of Directors is not aware of any material uncertainties that may cast significant doubt on the Group's ability to continue as a going concern. Therefore, the consolidated financial statements continue to be prepared on the going concern basis.

Classification of investments

The Group's management decides on acquisition of an investment whether it should be classified as a trading investment or available-for-sale. Classification of investments as trading investments depends on how management monitors the performance of these investments. These investments have readily available reliable fair values and the changes in fair values are reported as part of the consolidated statement of income in the consolidated financial statements. All other investments are classified as available-for-sale.

Impairment of quoted AFS equity investments

The Group's management records impairment charges on quoted AFS equity investments when there has been a significant or prolonged decline in the fair value below their cost. The determination of what is 'significant' or 'prolonged' requires judgment. In making this judgment, the Group evaluates, among other factors, historical share price movements and the duration (greater than 12 months) and extent (30% or more) to which the fair value of an investment is less than its cost. Impairment loss of quoted AFS equity investments recorded in the consolidated statement of income amounted to BD 131,304 as of 31 December 2017 (2016: BD 197,030) (see note 11).

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Useful lives of property, plant and equipment

The directors determine the estimated useful lives of the Group's property, plant and equipment for calculating depreciation. This estimate is determined after considering the expected usage of the asset, physical wear and tear, technical or commercial obsolescence.

The directors review, on a yearly basis, the useful lives of property, plant and equipment. Future depreciation charges would be adjusted when the directors believe the useful lives differ from previous estimates.

Impairment of trade receivables

An estimate of the collectible amount of trade receivables is made when collection of the full amount is no longer probable. For individually significant amounts, this estimation is performed on an individual basis. Amounts which are not individually significant, but which are past due, are assessed collectively and a provision applied according to the length of time past due, based on historical recovery rates.

6 SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS (continued)

Estimates and assumptions (continued)

Impairment of trade receivables (continued)

At the reporting date, gross trade receivables were BD 1,808,221 (2016: BD 2,360,422) and the allowance for impairment of trade receivables was BD 243,152 (2016: BD 231,020). Any difference between the amounts actually collected in future periods and the amounts expected will be recognised in the consolidated statement of income.

Impairment of inventories

Inventories are held at the lower of cost and net realisable value. When inventories become old or obsolete, an estimate is made of their net realisable value. For individually significant amounts this estimation is performed on an individual basis. Amounts which are not individually significant, but which are old or obsolete, are assessed collectively and a provision applied according to the inventory type and the degree of ageing or obsolescence, based on historical selling prices.

At the reporting date, gross food and beverage inventories were BD 3,585,686 (2016: BD 3,592,831), maintenance stores were BD 90,795 (2016: BD 93,795) and general stores BD 155,283 (2016: BD 126,285), with an allowance for old and obsolete inventories of BD 300,092 (2016: BD 288,471). Any difference between the amounts actually realised in future periods and the amounts expected will be recognised in the consolidated statement of income.

Impairment of unquoted AFS equity investments

In determining any impairment for the unquoted AFS equity investments carried at cost, assumptions have been made regarding the expected future cash generation of the assets, discount rates to be applied and the expected period of benefits.

10 INVESTMENT IN ASSOCIATES

The Group has a 28.06% interest in Bahrain Family Leisure Company B.S.C. (BFLC). BFLC is a public company registered in the Kingdom of Bahrain and primarily involved in operating restaurants, providing services related to family entertainment, supply of amusement related equipment and investing in businesses with similar objectives to those of BFLC.

The Group also has a 33.33% interest in African & Eastern (Bahrain) W.L.L., which is incorporated in the Kingdom of Bahrain and is involved in the business of investment in bonds and shares as well as importing and selling consumer products. African & Eastern (Bahrain) W.L.L. is a private entity that is not listed on any public exchange.

The Group's interests in its associates are accounted for using the equity method in the consolidated financial statements.

Managed funds:		
At fair value (note 29)	139,213	148,721
At cost	401	401
	139,614	149,122.00
	12,493,482	13,339,623

*Quoted investments (at fair value) includes an amount of BD 220,149 (2016: BD 220,149) which represents Basel III compliant Additional Tier I Convertible Perpetual Capital Securities denominated in Bahraini Dinars issued by a commercial bank in the Kingdom of Bahrain during the year ended 31 December 2017. The security is perpetual with the first possible call at the option of the issuer on 2 May 2021 and carries interest at a fixed rate of 8.25% per annum until 2 May 2021. Securities' holders will not have a right to claim the coupon if not paid and such event will not be considered as event of default.

The unquoted investments are carried at cost less impairment, as fair value cannot be reliably determined due to the unpredictable nature of future cash flows. As of 31 December 2017, the cumulative impairment provision on unquoted investments amounted to BD 148,566 (2016: BD 148,566). No impairment provision for unquoted investments was provided during the year ended 31 December 2017 (2016: BD 8,333).

Acquisition of a subsidiary	4,583,642	194,133	142,680	4,920,455
Purchases during the year	1,320,984	-	-	1,320,984
Fair value gain on available-for-sale investments - net	194,993	-	6,441	201,434
Impairment	(188,697)	(8,333)	-	(197,030)
Closing balance	12,418,636	771,866	149,121	13,339,623

* Quoted investments originally trading investments (at fair value) represented quoted investments that were held with the intention to derive short-term gains. Following the amendments to IAS 39 and IFRS 7, "Reclassification of Financial Assets", the Group reclassified these held for trading equity investments to available-for-sale. The Group identified the investments eligible under the amendments for which at 1 October 2008, it had a clear change of intent to hold for the foreseeable future rather than to exit or trade in the short term. The change of intent was attributable to the current turmoil in the equity markets due to the credit and liquidity problems in the market. Management believed that the market conditions at that time qualified for the definition of 'rare circumstances' under the revised IAS 39. The reclassifications were made with effect from 1 October 2008 at fair value at that date. The carrying value and the fair value of the investments on 1 October 2008 when the reclassification was made, was BD 2,155,274. This became the deemed cost of the investments upon transfer. The remaining cost of reclassified investments is BD 1,153,072 as of 31 December 2017 (31 December 2016: BD 1,153,072).

As at 31 December 2017 the carrying and fair value of reclassified investments is BD 1,577,569 (31 December 2016: BD 1,594,880). During the year, the Group has not recognised any fair value adjustments (31 December 2016: none) in the consolidated statement of income and recognised a fair value loss of BD 17,311 (2016: BD 51,341) in the consolidated statement of comprehensive income, on the said investments. Had there been no reclassification the Group would have recognised a fair value loss of BD 17,311 (2016: BD 51,341) in the consolidated statement of income.

13 TRADE AND OTHER RECEIVABLES (continued)

Trade receivables are non-interest bearing. Receivables relating to current guests are payable on departure. Receivables relating to other operations and corporate guests are generally on 30 day terms. Other receivables are generally interest free with no fixed terms of repayment.

As at 31 December 2017, trade receivables at nominal value of BD 243,152 (2016: BD 231,020) were impaired. Movements in the allowance for impairment of trade receivables were as follows:

	2017 BD	2016 BD
At 1 January	231,020	238,818
Provision (reversal) for the year - net (note 24)	12,132	(7,798)
At 31 December	243,152	231,020

As at 31 December, the ageing of unimpaired trade receivables is as follows:

	<i>Past due but not impaired</i>					
	<i>Neither past due nor impaired</i>		<i>61 – 90 days</i>			
	<i>Total BD</i>	<i>BD</i>	<i>31 – 60 days BD</i>	<i>BD</i>	<i>91 – 120 days BD</i>	<i>BD</i>
2017	1,565,069	760,802	420,083	114,229	77,149	192,806
2016	2,129,402	1,241,876	373,775	159,597	50,773	303,380

Unimpaired receivables are expected, on the basis of past experience, to be fully recoverable.

14 CASH AND BANK BALANCES

	2017 BD	2016 BD
Cash and cash equivalents as per consolidated statement of cash flows	18,966,466	4,233,699
Term deposits with an original maturity of more than three months	14,906,959	27,427,763
Bank balances representing unclaimed dividends	312,444	295,284
Cash on hand, bank balances and term deposits	34,185,869	31,956,746

Interest bearing bank balances carry interest at the rates of 0.10% to 2.65% (2016: 0.10% to 0.40%). Term deposits are made for varying periods of between six and seven months, depending on the immediate cash requirements of the Group, and earn interest or profit at their respective term deposit rates. The interest rates on term deposits as at 31 December 2017 range between 1.75% to 2.75% (2016: 1.75% to 2.65%).

	2017 BD	2016 BD
<i>Share capital</i>		
Authorised:		
300,000,000 (2016: 300,000,000) ordinary shares of BD 0.100 each	<u>30,000,000</u>	<u>30,000,000</u>
Issued and fully paid:		
Opening balance - 205,449,880 shares of BD 0.100 each	20,544,988	17,360,544
Issued during the period- 31,844,440 shares of BD 0.100 each	-	3,184,444
Issuance of bonus shares (note 17)	<u>2,054,499</u>	<u>-</u>
	<u>22,599,487</u>	<u>20,544,988</u>
Treasury shares: 56,266 shares (2016: 51,151) (arising as part of the acquisition of BTC)	<u>(33,248)</u>	<u>(33,248)</u>

Pursuant to a shareholders' resolution in 2016, the Company raised its authorised capital from 200 million shares to 300 million shares. The legal formalities pertaining to raising authorised share capital was finalised during the year. In 2016, the Company issued 31,844,440 shares, as part of an acquisition transaction, to the shareholders of BTC and gained a 100% stake in BTC (note 7). This resulted in an increase in capital of BD 20,698,886 from the issue, including a share premium of BD 17,514,442. The share premium is not available for distribution, but can be utilised as stipulated in the Bahrain Commercial Companies Law.

16 RESERVES

a) Statutory reserve

The Bahrain Commercial Companies Law and the Company's articles of association, requires 10% of the profit for the year to be transferred to a statutory reserve. The Company transferred an amount of BD 1,027,250 and resolved to discontinue such annual transfers as the reserve totals 50% of the paid up share capital. The reserve is not distributable except in such circumstances as stipulated in the Bahrain Commercial Companies Law.

b) General reserve

The general reserve, which represents funds set aside for the purpose of future capital expenditure and to enhance the already strong capital base of the Company, is distributable.

c) Available-for-sale investments reserve

This reserve relates to fair value changes on available-for-sale investments through consolidated statement of comprehensive income.

17 DIVIDENDS AND BONUS SHARES

Dividends proposed and declared

During 2017, dividends of 25 fils per share, relating to 2016 and totaling BD 5,134,968 (2016: 30 fils per share, relating to 2015 and totaling BD 5,208,163) were declared.

On 14 February 2018, the Board of Directors proposed a final cash dividend of 30 fils per share totaling BD 6,776,623 for the year 2017 (2016: 25 fils per share totaling BD 5,134,968 for the year 2016) and no bonus shares (2016: 20,544,988 bonus shares with a nominal value of BD 2,054,499 representing 10% of the issued and paid-up share capital before such bonus shares were issued). These appropriations are subject to the approval of the shareholders at the Annual General Meeting and other regulatory bodies.

	<hr/> 1,154,347	<hr/> 1,270,543

28 RISK MANAGEMENT

Introduction

The Group manages risk through a process of ongoing identification and monitoring of the risks it faces. The Group is exposed to interest rate risk, credit risk, liquidity risk, currency risk, market risk and reputational risk.

Board of Directors

The Board of Directors is responsible for the overall risk management approach and for approving the risk strategies and principles.

Executive committee

The executive committee is responsible for evaluating and approving business and risk strategies, plans and policies of the Group.

Investment committee

The investment committee is responsible for mitigating market and liquidity risks pertaining to the Group's investment activities by optimising liquidity and maximising returns from the funds available to the Group.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Financial instruments affected by market risk include trade and other receivables, deposits, available-for-sale investments and trading investments.

The sensitivity analysis in the following sections relate to the position as at 31 December 2017 and 31 December 2016.

The analysis exclude the impact of movements in market variables on the carrying value of end of service benefits and provisions.

Interest rate risk

Interest rate risk is the risk that the value of financial instruments will fluctuate due to changes in the market interest rates. The sensitivity of the income is the effect of the assumed changes in interest rates, with all other variables held constant, on the Group's profit for one year, based on the floating rate financial assets held at 31 December 2017 (2016: same). The Group is not significantly exposed to interest rate risk as it has fixed rate interest bearing deposits with commercial banks.

Gulf Hotels Group B.S.C.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2017

28 RISK MANAGEMENT (continued)

Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

The Group is exposed to credit risk on its term deposits, cash with banks, trade receivables, other receivables and security deposits. The Group places its deposits and funds with banks and investment managers having good credit rating. With regard to trade receivables, the Group seeks to limit its credit risk with respect to customers by setting credit limits for individual customers and monitoring outstanding receivables on an on-going basis.

The Group sells its products and provides its services to a large number of individuals, companies and government agencies. Its five largest customers account for 16% of outstanding trade receivables at 31 December 2017 (2016: 26%).

With respect to credit risk from the financial assets of the Group, which comprise bank balances, term deposits, trade receivables, other receivables and security deposits, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

Concentrations of credit risk arise when a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations of credit risk indicate the relative sensitivity of the Group's performance to developments affecting a particular industry or geographic location.

The distribution of the Group's financial assets is as follows:

Geographic region	2017		2016	
	Bahrain BD	Others BD	Bahrain BD	Others BD
Trade receivables	1,533,330	31,739	2,091,704	37,698

Gulf Hotels Group B.S.C.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2017

28 RISK MANAGEMENT (continued)

Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities when revenue or expense are denominated in a different currency from the Group's functional currency.

The Group's activities are carried out substantially in Bahraini Dinars and therefore, the Group is not exposed to significant currency risk. As the Bahraini Dinar is pegged to the US Dollar, balances in US Dollars are not considered to represent a significant currency risk. The effect of 10% increase or decrease in exchange rates on balances in foreign currencies other than US Dollars is not expected to be material.

Equity price risk

Equity price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual instrument or its issuer, or factors affecting all instruments traded in the market.

The Group controls market risk by monitoring investments and maintaining a diversified portfolio in order to limit exposure to movements in prices and volatility arising in connection with financial instruments. Its two largest investments account for 34% (2016: 30%) of the total quoted investments as of the date of consolidated statement of financial position.

The following table demonstrates the sensitivity of the cumulative changes in fair value to reasonably possible changes in equity prices, with all other variables held constant.

	2017			2016		
	Change in equity price	Effect on equity BD	Effect on profit BD	Change in equity price	Effect on equity BD	Effect on profit BD
Available-for-sale investments (quoted)						
	+10%	900,059	264,321	+10%	1,053,512	188,352
	-10%	1,131,339	(33,041)	-10%	(1,215,473)	(26,391)

The Group also has unquoted investments carried at cost where the impact of changes in equity prices will only be reflected when the investment is sold or deemed to be impaired, when the consolidated statement of income will be impacted. All of the Group's quoted investments are listed in the Kingdom of Bahrain and other GCC stock markets.

Gulf Hotels Group B.S.C.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2017

28 RISK MANAGEMENT (continued)

Concentration of investment portfolio

Concentration of investment portfolio arise when a number of investments are made in entities engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would be affected by changes in economic, political or other conditions. The Group manages this risk through diversification of investments in terms of investment concentration. The concentration of the Group's investment portfolio is as follows:

	2017 BD	2016 BD
Geographic region		
Kingdom of Bahrain	10,139,697	10,925,753
Kingdom of Saudi Arabia	903,608	942,714
United Arab Emirates	523,549	519,057
State of Qatar	358,401	418,560
Others	568,227	533,539
	<hr/> 12,493,482	<hr/> 13,339,623

Liquidity risk

Liquidity risk, is the risk that an enterprise will encounter difficulty in meeting its commitments.

The Group limits its liquidity risk by monitoring cash flows on an ongoing basis. The Group's terms of sale require amounts to be paid within 30 to 60 days of the date of sale or service. Trade payables are normally settled within 60 days of the date of purchase. The Group's financial liabilities as at 31 December 2017, based on contractual payment dates, amounted to BD 4,063,618 (2016: BD 4,096,118) and would mature within 3 months (2016: same).

Reputational risk

The Group manages reputational risk through regular monitoring of operations, ensuring that customers' feedback on the product and services offered is regularly received and acted upon, mystery guest processes and other forms of customer satisfaction surveys.

Capital management

The primary objective of the Group's capital management is to ensure that it maintains a healthy capital ratio in order to support its business and maximise shareholder value.

The Group manages its capital structure and makes adjustments to it through the payment of dividends and the issue of bonus shares in light of changes in business conditions. No changes were made in the objectives, policies or processes during the years ended 31 December 2017 and 31 December 2016. Capital comprises equity of the Group and is measured at BD 109,530,635 (2016: BD 104,030,023).

Operational risk

Operational risk is the risk of loss arising from system failure, human error, fraud or external events. When controls fail to perform, operational risks can cause damage to reputation, have legal or regulatory implications, or lead to financial loss. The Group cannot expect to eliminate all operational risks, but through a control framework and by monitoring and responding to potential risks, the Group is able to manage the risks. Controls include effective segregation of duties, access, authorisation and reconciliation procedures, staff education and assessment processes, including the use of internal audit.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2017

29 FAIR VALUES OF FINANCIAL INSTRUMENTS

Financial instruments comprise of financial assets and financial liabilities.

Financial assets consist of cash and bank balances, term deposits, trade and other receivables and investments. Financial liabilities consist of trade and other payables.

Set out below, is a comparison by class of the carrying amounts and fair value of the Group's financial instruments, other than those with carrying amounts are reasonable approximations of fair values:

	2017		2016	
	<i>Carrying amount</i> BD	<i>Fair value</i> BD	<i>Carrying amount</i> BD	<i>Fair value</i> BD
Financial assets:				
Quoted available-for-sale investments (note 11)	11,643,797	11,643,797	12,418,636	12,418,636
Managed funds (note 11)	139,213	139,213	148,721	148,721

The Group assessed that cash and bank balances, trade and other receivables and trade and other payables approximate their carrying amounts largely due to the short-term maturities of these instruments.

Fair values of quoted available-for-sale investments and trading investments are based on price quotations at the reporting date.

Fair value hierarchy

All available for sale investments valued at fair value and trading investments were valued under Level 1 fair value hierarchy, there were no financial instruments which were fair valued under Level 2 and Level 3 fair value hierarchy.

The Group held the following Level 1 financial instruments measured at fair value (equity instruments):

	2017	2016
	BD	BD
Financial assets measured at fair value		
Quoted available-for-sale investments (note 11)	11,643,797	12,418,636
Managed funds (note 11)	139,213	148,721
	11,783,010	12,567,357

There were no transfers between levels during the current or prior years. The Group has no financial assets valued at Level 3 fair value hierarchy.

Unquoted investments are carried at cost less impairment and are not included in the above table.

30 SEGMENT INFORMATION

For management purposes, the Group is organised into four main business segments:

Hotel operations	- Hotel room and rental and management of executive apartments and offices and provision of automatic laundry services.
Food and beverage	- Retail sale of food and beverages and convention operations.
Commercial activities	- Import, export and sale of kitchen and household equipment and interior decorations.
Investments and other activities	- Investment activities of the Group.

The operations of Gulf Brands International and the retail sales of food and beverages of the Gulf Hotel and the convention operations of the Gulf Convention Center have been aggregated for segmental reporting.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which in certain respects, as explained in the table below, is measured differently from operating profit or loss in the consolidated financial statements.

Transfer prices between operating segments are on an arm's-length basis in a manner similar to transactions with third parties.

Segment assets include all operating assets used by a segment and consist primarily of property, plant and equipment, inventories and accounts receivable. Whilst the majority of the assets can be directly attributed to individual business segments, the carrying amounts of certain assets used jointly by two or more segments are allocated to the segments on a reasonable basis.

Segment liabilities include all operating liabilities and consist primarily of trade and other payables.

The Group operates substantially in the Kingdom of Bahrain, hence geographical information is not required.

32 CORPORATE GOVERNANCE DISCLOSURES

(i) Board, Board Members and Management

Board and Directors' Responsibilities

The Board of Directors is accountable to shareholders for the proper and prudent investment and preservation of shareholder interests. The Board's role and responsibilities include but not limited to:

- Monitoring the overall business performance,
- Monitoring management performance and succession plan for senior management,
- Monitoring conflicts of interest and preventing abusive related party transactions,
- Accurate preparation of the end of year financial statements,
- Convening and preparing the Shareholders meeting,
- Recommend dividend payable to shareholders and ensure its execution,
- Adapt, implement and monitor compliance with the Company's code of ethics,
- Review the company's objectives and policies relating to social responsibilities, and
- Select, interview and appoint Chief Executive Officer and other selected members of the executive management.

In this respect, the Directors remain individually and collectively responsible for performing all Board of Director's tasks.

Material transactions requiring Board approval

The following material transactions require board review, evaluation and approval:

- The Company strategy,
- The annual budget,
- Major resource allocations and capital investments, and
- Management responsibilities and training, development and succession plan for Senior Management.

Election system of directors and termination process

Election / re-election of Board members take place every three years at the meeting of the Shareholders.

Termination of a Board member's mandate usually occurs by dismissal at the meeting of the Shareholders or by the member's resignation from the Board of Directors.

Directors trading of Company shares

During 2017, two of our Directors purchased 10,940 shares in GHG (2016: no trading by our Directors).

Code of conduct and procedures adopted by the Board for monitoring compliance

The Board and the Company's employees are expected to maintain the highest level of corporate ethics and personal behavior. The Company has established a Code of Conduct which provides an ethical and legal framework for all employees in the conduct of its business. The Code of Conduct defines how the Company relates to its employees, shareholders and the community in which the Company operates.

The Board of Directors has adopted the Gulf Hotels Group Code of Business Conduct and a Company Whistleblower policy to monitor compliance with company ethics.

32 CORPORATE GOVERNANCE DISCLOSURES (continued)

(i) Board, Board Members and Management (continued)

(iii) Corporate Governance

Corporate governance code

The Board and the Company's employees are expected to maintain the highest level of corporate ethics and personal behavior. The Company has established a Code of Conduct which provides an ethical and legal framework for all employees in the conduct of its business. The Code of Conduct defines how the Company relates to its employees, shareholders and the community in which the Company operates. The Board of Directors has adopted the code of Business Conduct and a Company Whistleblower policy to monitor compliance with company ethics.

Changes to the Group's corporate governance guidelines

None.

Compliance with the corporate governance code

The Board of Directors has adopted the Corporate Governance Code and a Company Whistleblower policy to monitor compliance with company ethics.

The Code of Conduct provides clear directions on conducting business internationally, interacting with governments, communities, business partners and general workplace behavior having regard to the best practice corporate governance models. The Code of Conduct sets out a behavioral framework for all employees in the context of a wide range of ethical and legal issues. The Code of Conduct will be published in the 'Corporate Governance' section of the Company's website.

Conflict of interest:

In 2017 and 2016, no instances of conflict of interest have arisen. In the instance of a conflict of interest arising a result of any business transaction or any type of resolution to be taken, the concerned Board member shall refrain from participating at the discussion of such transaction or resolution to be taken. In this respect, GHG's Board members usually inform the Board of a potential conflict of interest prior to the discussion of any transaction or resolution. The concerned Board member(s) also refrain from voting in any instance where a conflict of interest shall arise.

Evaluation of Board and Chairman Performance

This is discussed in the Annual General Meeting and will also be taken up as part of Corporate Governance Code.

CEO Performance

This is discussed in the Board Meeting and also taken up in the Nomination and Remuneration Committee as part of Corporate Governance Code.

Gulf Hotels Group B.S.C.

(iii) Corporate Governance

Means of communication with shareholders and investors

The Company is committed to providing relevant and timely information to its shareholders in accordance with its continuous disclosure obligations under the Corporate Governance Code.

Information is communicated to shareholders through the distribution of the Company's annual report and other communications. All releases are posted on the Company's website and released to the shareholders in a timely manner.

The Company Secretary is responsible for communications with the shareholders and ensuring that the Company meets its continuous disclosure obligations.

Management of principal risks and uncertainties faced by the Group

The Board as a whole and management are assessing the risk from time to time. Board of Directors discuss and take proper measures for risks faced by the Group.

Review of internal control processes and procedures

The Review of Internal control process and procedures is performed regularly by the Company's internal auditors to ensure efficiency.
