“On behalf of the Board of Directors, I have the pleasure of submitting the Annual Report and Financial Statements of the Gulf Hotels Group BSC, for the year ended 31st December 2020.

MARKET TRENDS AND COMPARATIVE PERFORMANCE

During 2020, the Covid-19 impact on the Travel and Tourism Sector was and remains exceptionally challenging. Various measures taken to ensure the safety of Bahrainis and Bahrain Residents, resulted in the restriction of international and regional travel into Bahrain and the closure of food and beverage outlets, spas and leisure facilities for many months, having an enormous impact on revenues. The huge drop in demand also fueled a fall in the Average Room Rate as hotels were offering very low rates in order to attract what little business there was.

The closure of the King Fahad Causeway since March 2020 not only deprived the hospitality industry of its major source of business but also had a significant negative impact on the retailing side of GHG's business.

A similar impact on business was felt in our overseas operations with GHG Colombo, Ocean Paradise Resort in Zanzibar and the Gulf Court Hotel Business Bay in Dubai being equally affected as our Bahrain businesses, although the latter two were showing strong signs of recovery towards the end of the year.

However, the most important issue throughout this pandemic has been the safety of Bahrain's citizens and residents and our dedicated teams in each of our operations have gone the extra mile to comply with and exceed all precautionary measures that were put in place and to ensure the safety of our customers and staff.

We are exceptionally grateful for our Government's prompt action to limit the spread of the coronavirus and for their financial support in sustaining businesses through the most difficult days of the pandemic. We also commend the Government on the vaccination process that is currently underway, that places Bahrain as one of the leading countries to vaccinate its population, which will in turn, hasten a return to a more normal business climate.

Despite the huge downturn in our business, the Group managed to maintain a positive cash position throughout the year and remains strong and well equipped to bounce back in 2021.

RESULTS

- Gross Operating Revenue amounted to BD 19,735,630
- Gross Operating Profit amounted to BD 7,430,016
- Net Loss amounted to BD 8,127,985

The drop in revenue of BD 18,834,180 or 48.8% against last year is attributed across the group's units to the Covid-19 pandemic. This resulted in a net loss of BD 8,127,985 a drop on last year of BD 14,078,115 or 236.6%.

In addition to the drop in revenues resulting from the pandemic, the Group has impaired two plots of land in Dubai and Bahrain and Dubai property by BD 5m, and increased its doubtful provision by BD 576K.

The Board offers our condolences and prayers over the sad demise of His Royal Highness Prince Khalifa bin Salman Al Khalifa and also extends our sincere condolences and sympathy to His Majesty King Hamad bin Isa Al Khalifa, His Royal Highness Prince Salman bin Hamad Al Khalifa, the Crown Prince, Deputy Supreme Commander and Prime Minister, members of the Royal Family and people of Bahrain.

Profit from associates reduced by BD 954K, also the dividend received reduced by BD 185K which contributed to the overall loss. On the other hand, Government support reached BD 923K.

PROPOSED APPROPRIATIONS

Taking into account the results achieved by the company and keeping in mind the Group's financial commitment and the uncertain trading conditions will continue to impact on cash flows in 2021, the Directors are proposing dividend distributions at 10% BD 2,259,949 equal to 10 fils per share.

FUTURE PROSPECTS

With the exception of the new Bahrain Airport Hotel development, located within the new Bahrain International Airport terminal, all other major projects were put on hold in 2020. The new 84 unit hotel, featuring Family Rooms, Standard Rooms, Compact Rooms and Sleeping Pods, is a Joint Venture between Gulf Hotels Group and Gulf Air Group and is nearing completion with the opening scheduled early in 2021.

ACKNOWLEDGMENTS

On behalf of the shareholders of Gulf Hotels Group BSC, the Board of Directors would like to express sincere gratitude and appreciation to H.M. King Hamad Bin Isa Al Khalifa, H.R.H. Prince Salman Bin Hamad Al Khalifa, the Crown Prince and the Prime Minister, the Ministers, Undersecretaries, Directors, and Heads of Government

Departments, for the immeasurable interest, guidance, and encouragement accorded to Gulf Hotels Group BSC.

We extend the same sentiments to our clients, patrons, and most of all, the people of Bahrain. We thank you for your continued support, trust, and confidence as we strive for progress.

The success of the Company in a very challenging year would not have been possible without the hard work and dedication of the Company's management and staff. The Board of Directors joins me in revealing our appreciation to the entire Gulf Hotels Group Management Team under the guidance of Garfield Jones, Chief Executive Officer. We also thank the management and all our divisions' staff who have worked tirelessly to produce the best possible results in challenging conditions. We are privileged to have such a committed and capable team and are confident that this team will continue to generate the best possible results in the future.

The two-storey commercial laundry, The Gulf Hotel Laundry Services, is a State-of-the-art laundry, which services the requirements of more than 30 hotels, restaurants and airlines, launders more than a million pieces each month and provides a very personalized pick-up and delivery service.

The Gulf Executive Residence Juffair

الإضافة الثانية لسلسلة الشقق الفاخرة التي تقدمها مجموعة فنادق الخليج وتقع في منطقة الجفير وتم افتتاحها في ديسمبر من العام ٢٠١٨. تقدم أجنحة الخليج الفاخرة - الجفير ١٠٩ شقة فندقية فاخرة بتصميمها على الجودة لتوفير أقصى سبل الراحة والرفاهية و تعتبر مكان مثالى للإقامة سواء للعمل أو للترفيه ويضم المبنى حمام سباحة يمكن التحكم بدرجة حرارته وصاله ألعاب رياضية وساوناً.

Opened in 2018 with its unique location in the Juffair district, the centre of city nightlife, offers 109 elegantly-designed apartments, ideal for both business and leisure. Each luxury apartment provides you with harmonious comfort and convenience and the building boasts a rooftop temperature controlled pool, gym and sauna.

Gulf Court Hotel Business Bay Dubai

تم إفتتاح الفندق بموقعه المتميز على خور دبي في النصف الثاني من العام ٢٠١٨ وبعد أول خطوات المجموعة نحو التوسيع الأقليمي، يقدم الفندق خيارات متنوعة من الغرف والأجنحة يبلغ عددها ٢٧٠ كما يضم مركز الاجتماعات والولائم والسبح والنادي الرياضي إضافة إلى ستة خيارات من المطاعم المختلفة.

Opened in 2018 is the Group's first venture into the UAE market as part of Gulf Hotels Group's regional expansion plan. Ideally situated within the Dubai Water Canal, the -4star deluxe Gulf Court Hotel features 270 tastefully designed rooms and suites and also offers a Conference Centre, the Gulf Spa Health & Fitness and a variety of outlets to satisfy every taste.

The Gulf Spa

يُعد «سبا الخليج» المنتجع الصحي بفندق الخليج على مساحة ٣١٠٠ متر مربع ويكون من ثلاثة طوابق مجهزة بأحدث الأجهزة والمرافق. يقدم «سبا الخليج» مجموعة متنوعة من الخدمات المتميزة التي تتضمن جلسات العناية بالوجه والجسم بأحدث التقنيات بالإضافة إلى العلاجات العربية القديمة التي تتم جميعها على يد فريق من المعالجين المختصين.

The Gulf Spa consists of three floors of ultimate luxury to guarantee a memorable and unique experience. Offering a variety of unique services, performed by a team of professional therapists.

Crowne Plaza

استحوذت مجموعة فنادق الخليج في عام ٢٠١٦ على أسهم شركة البحرين للسياحة ويندرج تحت مظلتها فندق كروان بلازا البحرين والذي يحتوي على ٢٧٨ غرفة فندقية. بالإضافة إلى مركز البحرين للمؤتمرات. يقع فندق كرون بلازا ذو الخمس نجوم، وسط مدينة المنامة ضمن منطقة الأعمال الدبلوماسية. وتدبره مجموعة فنادق إنتركونتيننتال العالمية، خضع ل أعمال جديد واسعة النطاق مقدماً لضيوفه الكثير من الخدمات والمرافق المصممة خصيصاً لراحةهم.

In 2016, Gulf Hotels Group acquired Bahrain Tourism Company, which owns the 278 bedroom Crowne Plaza Hotel and Bahrain Conference Centre in Bahrain. The five star Crowne Plaza hotel, operated by the InterContinental Hotel Group, has undergone an extensive renovation and is perfectly placed in the heart of the diplomatic area.

The K Hotel

يقع الفندق المملوک من قبل شركة موكان ذ.م.م، والذي تقوم مجموعة فنادق الخليح بإدارته في منطقة الجفیر الراقية وقد تم إفتتاح الفندق في فبراير ٢٠١١ يحتوي الفندق على ٤٠ غرفة وجناح ذوي تصاميم عصرية والتي تضاهي مثيلاتها من الغرف في فنادق الخمس نجوم بما تقدمه من وسائل ترفيهية للزبائن وذلك بأسعار تنافسية تعادل أسعار فنادق الأربع نجوم.

Opened in 2011, the deluxe four-star hotel, owned by Mokan WLL and managed by the Gulf Hotels Group, is located in the heart of Juffair and close to main shopping areas. The K Hotel consists of 240 luxurious, contemporary rooms and suites and offers services and amenities of 5 star hotels at affordable rates.

Asdal Gulf Inn - Boutique Hotel

يقع فندق أسدال جلف إن بوتيك في منطقة السيف بالمنامة على مسافة قريبة من مراكز التسوق الكبيرة. يضم الفندق ٨٩ غرفة وجناح مصممة على أحدث طراز لإرضاع أذواق المسافرين المتميزين.

Situated at the Seef district of Manama, the Asdal Gulf Inn Hotel offers 89 beautifully appointed rooms and suites which are all designed to satisfy the most discerning traveller.

Ocean Paradise Resort and Spa - Zanzibar

تم إفتتاح منتجع أوشن باراديس في العام ٢٠٠٤ وبعد أحد الرواد البارزين في صناعة السياحة في زنجبار، يقع المنتجع على مساحة ١٥ ألف متر مربع في شمال شرق جزيرة زنجبار ويبعد حوالي ١٠ كيلومترًا عن الساحل الشرقي لتنزانيا وسط منطقة رائعة الجمال ذات مناظر خلابة، حيث المدائق الغناء وأشجار جوز الهند اليابانية وشواطئ الرمال اللؤلؤية البيضاء مطلًا على المحيط الهندي ذو المياه الفيروزية.

One of the leading resorts in Zanzibar., opened in 2004 and located on the picturesque northeast coast of Zanzibar Island, the resort is set within 65,000 square meters of beautifully landscaped gardens, with statuesque palm trees, a sandy white beach and looking out towards the stunning turquoise water of the Indian Ocean.

Bahrain Airport Hotel

فندق مطار البحرين هو أحدث أضافه إلى باقة أعمال مجموعه فنادق الخليج والذي تم افتتاحه في فبراير ٢٠٢١ . يقع الفندق داخل مطار البحرين الدولي وسيكون الوجهة المثالية لمسافرين الترانزيت حيث سيوفر الفندق خيارات مختلفة من الغرف والتي تضم غرف نوم صغيرة وغرف عائليه مفروشه بالكامل وأيضاً مقصورات للنوم تتسع لشخص واحد . ما سيوفر للمسافرين كل ما يحتاجونه لاقامه مريحة دون مغادره المطار أو للراحة القصيرة بين الرحلات الدولية .

Partially owned by the Group and managed on behalf of Bahrain Airport Hotel Company, the hotel opened in February 2021. The Bahrain Airport Hotel is located opposite departure gate 15 in the new Bahrain International Airport and will provide passengers with everything they need to have a comfortable stay without leaving the airport or for a short rest in between international flights. Equipped with spacious family rooms, luxurious standard rooms, well-appointed compact rooms and state-of-the-art sleeping pods.

Bahrain Tourism Company BSC

تأسست شركة البحرين للسياحة كشركة مساهمة بحرينية في عام ١٩٧٤ . وهي شركة تابعة وملوكة بالكامل لمجموعة فنادق الخليج والتي تمتلك فندق كراون بلازا البحرين ومبني مكاتب شركة البحرين للسياحة بالمنطقة الدبلوماسية كما تمتلك أيضاً حصة مثل ثلث أسهم شركة أفريقيا ن آند ايسترن للمشروعات .

Bahrain Tourism Company was established as a Bahraini shareholder company in 1974, and now is a wholly owned subsidiary of Gulf Hotels Group which owns the Crowne Plaza Bahrain Hotel, the BTC Office Building in the Diplomatic Area and also owns a 3/1 stake in African & Eastern Bahrain.

مطاعمنا Our Restaurants

يشتهر فندق الخليج لأكثر من ٥٠ عام بأشهر وأرقى المطاعم الرائدة في المملكة حيث يقدم مجموعة رائعة من الأطباق من مختلف أنحاء العالم. تولى مجموعة فنادق الخليج اهتماماً كبيراً بسمعه مطاعمها. لهذا يُحرص المجموعة على تعيين أفضل الطهاة المتخصصين من بلد المنشأ لكل مطعم من مطاعم الفندق وذلك للتأكد من تقديم أفضل الأطباق التقليدية الخاصة بها.

For over 50 years, The Gulf Hotel has brought the finest cuisines from around the world to the shores of Bahrain. Firmly positioned as a gastronomic paradise, The Gulf Hotel houses 10 of Bahrain's leading fine-dining restaurants, cafés and lounges. The Gulf Hotels Group places great importance on the reputation of its restaurants, which is why master chefs from various countries have been commissioned for each of the hotel's restaurants to ensure that they each deliver a truly authentic product.

OUR RESTAURANTS

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS

Gulf Hotels Group BSC, Manama, Kingdom of Bahrain

Report on the audit of the consolidated financial statements

Opinion

We have audited the accompanying consolidated financial statements of Gulf Hotels Group BSC (the "Company") and its subsidiaries (together the "Group"), which comprise the consolidated statement of financial position as at 31 December 2020, the consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2020, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants International Code of Ethics for Professional Accountants (including International Independent Standards) (IESBA Code), together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the Kingdom of Bahrain, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Embassies of matter -impact of Covid 19

We draw attention to Note 4 and Note 26 (c) to the consolidated financial statements which describes the effect of the COVID-19 pandemic on the Group's operations, its results and related uncertainties. Our opinion is not modified in respect of this matter.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Impairment of property and equipment

(refer to accounting policy in Note 3(p) and Note 5 to the consolidated financial statements)

Description

We focused on this area because:

- of the significance of property and equipment which make up 72% of total assets (by value); and
- assessment of indicators of impairment and estimation of recoverable amount by the Group involves significant judgement and estimation uncertainty especially in the current operating environment arising from Covid-19.

How the matter was addressed in our audit

Our procedures included:

- We involved our own valuation specialists in:
 - evaluating the Group's process of identifying possible indicators of impairment of the property and equipment;
 - evaluating the appropriateness of the impairment assessment methodology used by the external, independent valuers; and
 - challenging the reasonableness of key assumptions and input used in estimating the recoverable amount of the property.
- evaluating the adequacy of the Group's disclosures related to impairment of property and equipment in the consolidated financial statements by reference to the requirements of the relevant accounting standards.

Other information

The board of directors is responsible for the other information. The other information comprises the annual report but does not include the consolidated financial statements and our auditors' report thereon. Prior to the date of this auditors' report, we obtained the Chairman's report which forms part of the annual report, and the remaining sections of the annual report are expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we have obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the board of directors for the consolidated financial statements

The board of directors is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as the board of directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the board of directors is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the board of directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS (Continued)

Gulf Hotels Group BSC, Manama, Kingdom of Bahrain

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the board of directors.
- Conclude on the appropriateness of the board of directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other regulatory matters

- 1) As required by the Commercial Companies Law, we report that:
 - a) the Company has maintained proper accounting records and the consolidated financial statements are in agreement therewith;
 - b) the financial information contained in the chairman's report is consistent with the consolidated financial statements;
 - c) we are not aware of any violations during the year of the Commercial Companies Law or the terms of the Company's memorandum and articles of association that would have had a material adverse effect on the business of the Company or on its financial position; and
 - d) satisfactory explanations and information have been provided to us by management in response to all our requests.
- 2) As required by the Ministry of Industry, Commerce and Tourism in their letter dated 30 January 2020 in respect of the requirements of Article 8 of Section 2 of Chapter 1 of the Corporate Governance Code, we report that the Company has:
 - a) appointed a corporate governance officer; and
 - b) a Board approved written guidance and procedures for corporate governance.
 - c) The engagement partner on the audit resulting in this independent auditors' report is Jalil AlAali.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the Year Ended 31 December 2020 - Bahraini Dinars

1. Reporting entity

Gulf Hotels Group B.S.C. ("the Company") is a publicly listed company incorporated in the Kingdom of Bahrain and registered with the Ministry of Industry, Commerce and Tourism under commercial registration (CR) number 950. The postal address of the Company's registered head office is P.O Box 580, Manama, Kingdom of Bahrain.

These consolidated financial statements comprise the results of the Company and its subsidiaries (together referred to as the "Group"). The Group is primarily involved in providing hospitality services.

The Group owns and operates the Gulf Hotel and Crown plaza Hotels in the Kingdom of Bahrain and Gulf Court Hotel Business Bay in Dubai, UAE. The Group also provides management services to The K Hotel and Asdal Gulf-inn Seef, in the Kingdom of Bahrain, and is a shareholder and operator of Ocean Paradise Resort, Zanzibar, Republic of Tanzania.

The Group's significant subsidiaries and associates are as follows:

Subsidiary	Ownership interest	Date of incorporation	Country	Activities
Gulf Hotels Management Company S.P.C.	100%	4 December 2002	Bahrain	Managing hotels and restaurants and provision of catering services catering services.
Gulf Hotel Laundry Services	100%	1 February 2014	Bahrain	Provision of laundry services.
Bahrain Tourism Company – Crowne Plaza hotel	100%	31 May 2016	Bahrain	Hotel operations
Gulf Court Hotel Business Bay	100%	07-Mar-2018	UAE	Hotel operations

2. Basis of preparation

a) Statement of compliance

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and in conformity with the Commercial Companies Law.

Going concern basis of accounting

The board of directors continues to be confident that the Group has adequate resources to continue its operation for at least the next 12 months and that the going concern basis of accounting remains appropriate.(refer Note 4(a) on impact of COVID-19 and Note 26 on liquidity).

b) Basis of measurement

The consolidated financial statements are prepared under the historical cost basis, except for investment securities which are measured at fair value through other comprehensive income.

c) Functional and presentation currency

These consolidated financial statements are presented in Bahrain Dinar, which is also the Group's functional currency. Unless otherwise stated, all financial information presented has been rounded off to the nearest Dinar.

d) Use of significant judgments and estimates

The preparation of these consolidated financial statements in conformity with IFRS requires, management to make estimates and judgements that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised, if the revision affects only that period or in the period of the revision and any future period, if the revision affects both current and future periods.

Judgments

In the process of applying the Group's accounting policies management has made certain estimates and judgements, which have the most significant effect on the amounts recognised in the consolidated financial statements. Actual results may differ from these estimates.

For the Year Ended 31 December 2020 - Bahraini Dinars

Going concern

Whether there are material uncertainties that may casts significant doubt on the entity's ability to continue as a going concern.(refer Note 4(a) on impact of COVID-19 and Note 26 on liquidity)

Impairment of property and equipment

The carrying amount of the Group's property and equipment is reviewed at every reporting date to determine if there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. Impairment loss is recognised whenever the carrying value of the asset exceeds its estimated recoverable amount (refer to Note 3(p) and Note 5).

e) New standards, amendments and interpretations effective from 1 January 2020

There were no new standards, amendments to standards and interpretations, which became effective as of 1 January 2020, that were relevant and material to the Group.

f) New standards, amendments and interpretations issued by not yet effective

IAS 1 – classification of liabilities as current and non-current.

Under existing IAS 1 requirements, companies classify a liability as current when they do not have an unconditional 'right to defer' settlement of the liability for at least twelve months after the end of the reporting period. As part of its amendments, the requirement for a right to be unconditional has been removed and instead, now requires that a right to defer settlement must have substance and exist at the end of the reporting period. This assessment may require management to exercise interpretive judgement.

Further, 'a right to defer' exists only if the company complies with conditions specified in the loan agreement at the end of the reporting period, even if the lender does not test compliance until a later date. This new requirement may change how companies classify rollover facilities, with some becoming non-current.

The amendments state that settlement of a liability includes transferring a company's own equity instruments to the counterparty. When classifying liabilities as current or non-current a company can ignore only those conversion options that are recognized as equity. Therefore, companies may need to reassess the classification of liabilities that can be settled by the transfer of the company's own equity instruments – e.g. convertible debt.

The amendments are effective for annual reporting periods beginning on or after 1 January 2023.

The Group does not expect a significant impact on its consolidated financial statements from adopting this amendment.

3. Significant accounting policies

The significant accounting polices applied in the preparation of these consolidated financial statements are set out below. These accounting policies have been consistently applied by the Group and are consistent with those used in the previous year.

a) Basis of consolidation

i) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group 'controls' an entity if it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date when control ceases.

ii) Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognised in the statement of profit or loss. Any interest retained in the former subsidiary is measured at measured at fair value when control is lost.

iii) Non-controlling interests (NCI)

Non-controlling interests represents their proportionate share of the acquiree's identifiable net assets at the date of acquisition. Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as an equity transaction.

iv) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses (except for foreign currency transaction gains or losses) arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised losses are also eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment. Unrealised gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Year Ended 31 December 2020 - Bahraini Dinars

v) Equity accounted investees

Associates are those entities in which the Group has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the Group has joint control, whereby the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in associates and the joint venture are accounted for using the equity method. They are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of the profit or loss and Other comprehensive Income of equity accounted investees, until the date on which significant influence or joint control ceases.

When the Group's share of losses exceeds its interest in equity accounted investee, the Group's carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of equity accounted investee. Dividend received from equity accounted investee is recognised as a reduction in the carrying amount of the investment.

vi) Business combination

The Group accounts for business combinations using the acquisition method when the acquired set of activities and assets meet the definition of a business and control is transferred to the Group. The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognized in profit or loss immediately. Transaction costs are expensed as incurred, except if related to the issue of debt or equity securities.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of financial instrument is classified as equity, then it is not re-measured and settlement is accounted for within equity. Otherwise, other contingent consideration is re-measured at fair value at each reporting date and subsequent changes in the fair value of the contingent consideration are recognized in profit or loss.

b) Foreign currency

Foreign currency transactions are translated into the functional currency of the Group using the exchange rates prevailing at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into functional currency at the exchange rate at the reporting date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the year, adjusted for effective interest and payments during the year and the amortised cost in foreign currency translated at the exchange rate at the end of the year. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in foreign currency are translated at the exchange rate at the date of the transaction. Foreign currency differences are generally recognized in profit or loss.

i) Revenue

The Group generates revenue primarily on letting hotel rooms and sale of food and beverages. The Group recognises revenue when it transfers control over a food or a service to a customer.

ii) Letting hotel rooms

Revenue from letting hotel rooms is recognised over the period of the stay of the customer.

iii) Sale of food and beverages

Revenue from sale of food and beverages is recognised at a point in time when the food and beverage is delivered and have been accepted by the customer. Invoices are generated at that point in time.

iv) Management fees

Management fees are recognised when the services are rendered as determined by the management agreement. The variable consideration related to the fees is estimated as per the agreement and constrained until it is highly probable that there is no significant uncertainty regarding the amount of consideration.

v) Rental income

Revenue from property leased out under an operating lease are recognised on a straight-line basis over the term of the lease.

vi) Interest income

Interest income is recognised using the effective interest rate (EIR) method. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset or liability.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Year Ended 31 December 2020 - Bahraini Dinars

vi) Dividend income

Dividend is recognised when the Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

d) Employee Benefits

Bahraini employees

Pensions and other social benefits for Bahraini employees are covered by the Social Insurance Organisation, which is a "defined contribution scheme" in nature under IAS 19 'Employee Benefits', and to which employees and employers contribute monthly on a fixed-percentage-of-salaries basis.

Expatriate employees

Expatriate employees on fixed contracts are entitled to leaving indemnities payable under the Bahraini Labour Law for the Private Sector of 2012, based on length of service and final remuneration. Provision for this unfunded commitment, which is a "defined benefit scheme" in nature under IAS 19, has been made by calculating the notional liability had all employees left at the reporting date.

e) Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on weighted average cost. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale. The cost includes expenditure incurred on acquiring the inventories and bringing them in their existing location and condition.

f) Property and equipment

i) Recognition and measurement

Items of property and equipment held for use in the provision of service or for administrative purposes on a continuing basis and not intended for sale in the ordinary course of business are carried at cost less accumulated depreciation and impairment losses, if any.

If significant parts of an item of property and equipment have different useful lives, then they are accounted for as a separate items (major components) of property and equipment.

ii) Subsequent measurement

Subsequent costs are included in the assets carrying amount or are recognized as a separate asset as appropriate only when it is probable that future economic benefits associated with the component will flow to the Company and the cost of the component can be measured reliably. All other repairs and maintenance are charged to the profit or loss during the financial period in which they are incurred.

iii) Depreciation

Depreciation is calculated to write-off the cost of items of property, plant and equipment less their estimated residual values using straight-line method over their estimated useful lives and is generally recognized in profit or loss. Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

Buildings on freehold land • original structure • subsequent improvements	40 years Over the remaining life of the buildings they relate to, or earlier, as appropriate
Furniture, fittings and office equipment	2 to 7 years
Plant, equipment and motor vehicles	2 to 10 years

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of profit or loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each reporting date.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Year Ended 31 December 2020 - Bahraini Dinars

g) Investment property

Investment properties are properties held to earn rentals or for capital appreciation or both. They are measured at cost, including transaction costs, less accumulated depreciation and accumulated impairment, if any. The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met; and excludes the costs of day to day servicing of an investment property. Depreciation on investment properties is calculated on a straight-line method over the estimated useful lives normally 30 years.

A gain or loss on disposal of investment property (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is recognised in profit or loss.

h. Financial instruments

i) Recognition and initial measurement

Trade receivables are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at transaction price.

ii) Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at amortised cost or equity security at fair value through other comprehensive income (FVTOCI)

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity security that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on a security-by-security basis.

On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets – Business model assessment:

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Group's continuing recognition of the assets.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Year Ended 31 December 2020 - Bahraini Dinars

Financial assets – Subsequent measurement and gains and losses:

Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.
Equity securities at FVOCI	These assets are subsequently measured at fair value. Gains and losses are recognised in OCI and are never reclassified to profit or loss. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment.

Financial liabilities – Classification, subsequent measurement

Financial liabilities are classified as measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss.

iii) Derecognition

Financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

Financial liabilities

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

iv) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

v) Impairment of financial instruments

The Group recognises loss allowances for expected credit losses (ECLs) on financial assets measured at amortised cost.

The Group measures loss allowances for trade and other receivables based on simplified approach i.e. an amount equal to lifetime ECLs, however for cash and bank balances, measurement of loss allowances is based on 12-month ECL

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 90 days past due.

The Group considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Year Ended 31 December 2020 - Bahraini Dinars

Measurement of ECLs

Trade and other receivables - (Simplified approach)

The Group uses an allowance matrix to measure the ECLs of trade and other receivables from individual customers, which comprise a very large number of small balances.

Loss rates are calculated using a 'roll rate (Net-flow)' method based on the probability of a receivable progressing through successive stages of delinquency to the loss bucket. Recovery from the loss bucket is also considered for computing the historical loss rates. Loss rates are based on actual credit loss experience. These rates are adjusted to reflect differences between economic conditions during the period over which the historical data has been collected, current conditions and group view of economic conditions over the expected lives of the receivables. The forward looking adjustment of the loss rates is based on a qualitative score card which factors the management's view on the future economic and business conditions

Cash and Bank balances – (General approach)

Impairment on cash and cash equivalents has been measured on a 12-month expected loss basis and reflects the short maturities of the exposures. The Group considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties.

Credit-impaired financial assets

At each reporting date, the Group assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 90 days past due; and
- it is probable that the borrower will enter bankruptcy or other financial reorganisation.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For individual customers, the Group individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. Financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

i) Share Capital

Equity shares are classified as equity. Incremental costs directly attributable to the issue of the ordinary shares and share options are recognized as a deduction from equity.

j) Treasury shares

When shares recognized as equity are repurchased, the amount of the consideration paid, including any attributable costs, is recognized as a deduction from equity. Repurchased shares are classified as treasury shares and are presented in the equity. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase in equity and the resulting surplus or deficit on the transaction is presented within share premium.

k) Dividends

Dividends and other proposed appropriations are recognised as a liability in the period in which they are approved by the shareholders.

l) Directors' remunerations

Directors' remunerations are charged to the statement of profit or loss in the year in which they are incurred.

m) Segment reporting

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments.

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' operating results are reviewed regularly by the Board of Directors and Group's Investment and Executive Committee to make decisions

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Year Ended 31 December 2020 - Bahraini Dinars

about resources to be allocated to the segment and to assess its performance, and for which discrete financial information is available.

Segment results that are reported to the Board of Directors and Executive Committee include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

n) Provisions

A provision is recognised in the statement of financial position when the Company has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation.

o) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, in the principal market for the asset or liability or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group.

When one is available, the Group measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as 'active' if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The best evidence of the fair value of a financial instrument on initial recognition is normally the transaction price – i.e. the fair value of the consideration given or received.

If a market for a financial instrument is not active or there is no market, the Group establishes fair value using well-recognised valuation techniques that may include recent arm's length transactions between knowledgeable, willing parties (if available), discounted cash flows or market multiples for similar instruments.

The objective of valuation techniques is to arrive at a fair value measurement that reflects the price that would be received to sell the asset or paid to transfer the liability in an orderly transaction between market participants at the measurement date.

p) Impairment of non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than inventory), to determine whether there is any indication of impairment. If any such indication exists, the Group estimates the asset's recoverable amount.

The recoverable amount of an asset or cash-generating unit (CGU) is the greater of its value in use and its fair value less costs to sell. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Value in use is based on the estimated future cash flows, discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate well recognized valuation model is used.

Impairment losses are recognised in profit or loss.

q) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset is capitalised. Other borrowing cost is recognised in the profit or loss in the year in which it arises.

r) Interest expense

Interest expense pertains to borrowings from bank and is recognized using effective interest rate method. The effective interest rate method is a method of calculating the amortized cost of financial asset or liability and of allocating interest income or expense over the expected life of the asset or the liability. The application of interest rate method has effect of recognizing the interest expense evenly in proportion to the amount outstanding over the period to maturity or repayment.

s) Governmental levy

The Group pays a Government levy calculated at a fixed percent of the Hotels' total revenue (net of foreign exchange gains) and is payable quarterly in arrears to the Government.

t) Charity reserve

Based on the recommendations of the Board of Directors, an amount is transferred from the profit for the year to this reserve. The reserve represents the uncommitted amount of the donations and charities approved by the Shareholders.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Year Ended 31 December 2020 - Bahraini Dinars

u) Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost, less provision for impairment.

v) Trade payables

Trade and other payables are initially recognised at fair value and subsequently measured at amortised cost.

w) Government grant

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises expenses for which the grants are intended to compensate. In the case of grants related to assets, requires setting up the grant as deferred income or deducting it from the carrying amount of the asset.

x) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, bank balances and bank deposits with original maturity of three months or less when acquired and is subject to insignificant risk of changes in its fair value.

4. Impact of COVID-19

The outbreak of the COVID-19 pandemic across the world and the measures adopted by governments worldwide to mitigate its spread have sharply affected the travel and hospitality industries over the last 9 months of 2020. These measures included restriction on travel, border closings, lockdown, quarantines measures, closure of certain operations including in-door dining and event restrictions, with the Group generating most of its revenue during the year from sale of beverages through its retail stores. The Group's operations were heavily impacted with a 49% drop in its core revenue. This has negatively impacted the Group's financial performance during the year and also its liquidity position (refer note 26 (c)).

The Government of Kingdom of Bahrain has provided financial support to businesses to mitigate some of the impact of Covid-19. The Group received a total subsidy of BD 922,878 towards reimbursement of Bahraini staff salaries and waiver of electricity, water and other charges. These amounts have been accounted for as government grant in profit or loss in accordance with IAS 20

For the year ended 31 December 2020, the Group recognised a net loss from operation of BD 3,063 thousand before impairment on property and equipment. The Group's net current assets as at 31 December 2020 were BD 11,197 thousand compared to current liabilities of BD 9,226 thousand.

Depending on the duration of the COVID-19 crises and continued negative impact on economic activity, the Group might experience further negative results and liquidity constraint and could incur additional impairment on its assets in 2021. The exact impact on the activities in 2021 cannot be predicted.

5. Property and equipment

2020	Freehold land	Buildings on freehold land	Furniture, fittings and office equipment	Equipment and motor vehicles	Capital work-in-progress	Total

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Year Ended 31 December 2020 - Bahraini Dinars

Gulf Hotel and Crown Plaza hotel are situated in Bahrain and are between 40-50 and 44 years old respectively. The conference centre building in Bahrain is 25 years old. The Group's hotel in Dubai is 3 years old, and also a new residential building situated in Juffair area which is 2 years old.

The Covid-19 crisis adversely affected the travel and hospitality industries in all the countries in which the Group operates. Given the impact on the business, the Group has determined that indicators of impairment existed at 31 December 2020 and accordingly conducted impairment tests to assess recoverability of the carrying value of its Hotel properties. On this basis, the Group recognised impairment losses of BD 5,064,680.

The 31 December 2020 valuation contains a 'material valuation uncertainty' clause due to the market disruption caused by the COVID-19 pandemic, which resulted in a reduction in transactional evidence and market yields. This clause does not invalidate the valuation but implies that there is substantially more uncertainty than under normal market conditions. Accordingly, the valuer cannot attach as much weight as usual to previous market evidence for comparison purposes, and there is an increased risk that the price realised in an actual transaction would differ from the value conclusion. As a result of this increased uncertainty, the assumptions may be revised significantly in 2021.

The impairment tests were carried out by an external, independent property valuers, having appropriate recognised qualification and experience in the location and category of the property being assessed taking into account the expected impacts of the health crisis and the economic conditions for recovery. For the freehold land in Dubai, the sales comparison approach was used resulting in impairment of BD 2,315,810. For the Hotel property in Dubai, discounted cash flow method was used with a forecast period of 5 years, discount rate of 7.7% and average growth rate of 2.5% resulting in impairment of BD 2,426,111.

For freehold land in Bahrain, the sales comparison approach was used resulting in impairment of BD 322,759. For hotel properties in Bahrain, the profit rate method was used utilising profits over the last 3 years and capitalisation rate of 9% resulting in no impairment.

2019	Freehold land	Buildings on freehold land	Furniture, fittings and office equipment	Plant equipment and motor vehicles	Capital work-in-progress	Total
Cost						
At 1 January 2019	19,781,362	89,484,238	23,220,808	20,506,374	11,626,012	164,618,794

- Credit risk
- Market risk; and
- Liquidity risk.

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital. The note also presents certain quantitative disclosures in addition to the disclosures throughout the financial statements.

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board has established an executive management committee, which assist the Board of Directors in effectively discharging their responsibilities for developing and monitoring the Group's risk management policies.

The Group's Audit Committee oversees how management monitors compliance with the Company's risk management procedures and reviews the adequacy of the risk management practices in relation to the risks faced by the Company. The Group's audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and adhoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Year Ended 31 December 2020 - Bahraini Dinars

a) Credit risk

Credit risk is the risk that a customer or a counter party to a financial instrument will fail to discharge an obligation and cause the Group to incur a financial loss. The Group is exposed to credit risk primarily on its cash and bank balances, receivables and investment in debt securities.

The Group's credit risk on cash and bank balances is limited as these are placed with banks in Bahrain having good credit ratings.

With regard to trade receivables, the Group seeks to limit its credit risk with respect to customers by setting credit limits for individual customers and monitoring outstanding receivables on an on-going basis.

Concentrations of credit risk arise when a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations of credit risk indicate the relative sensitivity of the Group's performance to developments affecting a particular industry or geographic location.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	2020	2019
Trade receivables	653,210	2,318,639
Other assets	3,142,198	3,103,850
Bank balances	4,190,548	7,079,529
	7,985,956	12,502,018

The maximum exposure to credit risk at the reporting date based on geographical concentration was:

	2020	2019
Bahrain	5,622,325	9,963,619
UAE	2,310,579	2,445,245
Others	53,052	93,154
	7,985,956	12,502,018

The ageing of receivables at the reporting date was:

	2020		2019	
	Gross	Impairment	Gross	Impairment
Neither past due nor impaired	285,791	(37,382)	673,870	-
Past due 0-90 days	280,093	(117,963)	1,195,438	-
Past due 91-180 days	85,598	(42,561)	187,467	-
More than 180 days	909,195	(709,561)	560,568	(298,704)
	1,560,677	(907,467)	2,617,343	(298,704)

b) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return on risk. The Group incurs financial liabilities in order to manage market risks. All such transactions are carried out within the guidelines set by the Board of Directors.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Year Ended 31 December 2020 - Bahraini Dinars

(i) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. A 1% increase / decrease in interest rates will have an impact of BD 93,969 (2019: BD 94,323) loss and BD 154,824 (2019: BD 199,354) gain on the profit and equity of the Group.

(ii) Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company has exposure to currency risk on its purchases invoiced in foreign currency, on credit card sales in foreign currency and on certain investment in foreign currency. Predominantly, the purchase of products is from local suppliers. Investments in foreign currency are mainly in Saudi Riyals or UAE Dirhams, which are effectively pegged against the US dollar. The majority of the foreign currency purchases are in US dollars. The US dollar is pegged against the Bahraini dinar and therefore the Company is not exposed to any significant currency risk.

(iii) Equity price risk

The Group equity investments are listed on regional exchanges.

The following table demonstrates the sensitivity of the cumulative changes in fair value to reasonably possible changes in equity prices, with all other variables held constant.

	2020			2019		
	Change in equity price	Effect on equity	Effect on profit	Change in equity price	Effect on equity	Effect on profit
Investment securities (quoted)	+10%	1,035,114	-	+10%	1,084,103	-

All of the Group's quoted investments are listed in the Kingdom of Bahrain and other GCC stock markets.

Concentration of investment portfolio

Concentration of investment portfolio arise when a number of investments are made in entities engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would be affected by changes in economic, political or other conditions.

The Group manages this risk through diversification of investments in companies operating in different sectors. All of the Group's equity investments are in kingdom of Bahrain

c) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's objective when managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions.

The Covid-19 measures imposed by Governments of countries in which the Group operates to contain the pandemic placed severe stress on the Group's liquidity as revenue generating activities were restricted from early March 2020 to 31 December 2020. The Group has taken and continue to take actions to mitigate the impact, including reducing capital expenditure and operating expenses. The Group believes that the effects of Covid-19 pandemic on its operations will continue to have a negative impact on its financial results and liquidity.

The Group's sale of beverages through its retail outlets continue to generate strong cash flows. The Group's associate A&E continues to perform well and is expected to provide cash flow support to the group though dividend distributions.

As at 31 December 2020, The Group has BD 14,588 thousand of resources comprising cash and cash equivalents of BD 4,237 thousand and, other highly liquid assets (listed shares) of BD 10,351 thousand which will be sufficient to meet its obligations when they fall due over the next 12 months and more.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Year Ended 31 December 2020 - Bahraini Dinars

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted.

2020	Carrying amount	Gross contractual cash flows	Within 1 Year	1 year to 5 years	Over 5 years
Trade and other payables	5,125,520	5,125,520	5,125,520	-	-
Bank term loans	11,840,000	12,593,406	4,531,791	8,061,615	-
	16,965,520	17,718,926	9,657,311	8,061,615	-

2019	Carrying amount	Gross contractual cash flows	Within 1 Year	1 year to 5 years	Over 5 years
Trade and other payables	7,698,461	7,698,461	7,698,461	-	-
Bank term loans	12,560,000	14,137,787	1,531,264	12,606,523	-
	20,258,461	21,836,248	9,229,725	12,606,523	-

d) Operational risk

Operational risk is the risk of unexpected losses resulting from inadequate or failed internal controls or procedures, systems failures, fraud. While operational risk cannot be entirely eliminated, it is managed and mitigated by ensuring that the appropriate infrastructure, controls, systems, procedures, and trained and competent people are in place throughout the Group. A strong internal audit function makes regular, independent appraisals of the control environment in all identified risk areas. Adequately tested contingency arrangements are also in place to support operations in the event of a range of possible disaster scenarios.

e) Capital management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the Group. The Board of Directors monitors both the demographic spread of shareholders, as well as the return on capital, which the Group defines as total shareholders' equity and the level of dividends to shareholders. The Board seeks to maintain a balance between the higher returns and growth that might be possible by a sound capital position. There were no significant changes in the Group's approach to capital management during the year.

27. Fair value and classification of financial instruments

Fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

Fair value Hierarchy

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Valuation techniques based on observable inputs, either directly (i.e. ask prices) or indirectly (i.e. derived from prices). This category includes instruments valued using quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly observable from market data; and
- Level 3: Valuation techniques using significant unobservable inputs. This category includes instruments where the valuation technique includes inputs not based on market observable data.

The Group recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

Financial assets measured at fair value

The following table sets out the fair values of financial instruments measured at fair value and analyses them by the level in the fair value hierarchy into which each fair value measurement is categorised:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Year Ended 31 December 2020 - Bahraini Dinars

31 December 2020	Level 1	Level 2	Level 3	Total fair value
Equity securities at FVOCI	10,351,153	-	2,812,996	13,164,149

31 December 2019	Level 1	Level 2	Level 3	Total fair value
Equity securities at FVOCI	10,841,028	-	2,525,330	13,366,358

There were no transfers between Level 1 and Level 3 of the fair value hierarchy during the year ended 31 December 2020. The table below shows a reconciliation from the beginning balances to the ending balances for fair value measurements in Level 3 of the fair value hierarchy:

	2020	2019
Balance at 1 January	2,525,330	1,970,874
Total gains or losses:		
- in other comprehensive income	287,666	554,456
Balance at 31 December	2,812,996	2,525,330

Financial assets and liabilities not measured at fair value

The fair value of financial assets not measured at fair value include cash and bank balances, trade receivables and other assets and trade and other payables approximated their respective book values due to their short-term nature.

The fair value of bank term loans approximate carrying value since they are at floating interest rates.

Classification of financial instruments

Except for investment securities which are classified at fair value through equity, all other financial assets and financial liabilities are classified at amortised cost.

28. Comparatives

The comparative figures have been regrouped, where necessary, in order to conform to the current year's presentation. Such regrouping did not affect the previously reported profit, total comprehensive income for the year or total equity.

29. Segmental Information

For management purposes, the Group is organised into four main business segments:

Hotel operations: Hotel rooms and rental and of executive apartments and office

Food and beverage: sale of food and beverages and convention operations

Investments and other activities: Investment activities of the Group

The operations of Gulf Brands International and the retail sales of food and beverages of the Gulf Hotel and the convention operations of the Gulf Convention Center have been aggregated for segmental reporting.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which in certain respects, as explained in the table below, is measured differently from operating profit or loss in the consolidated financial statements.

Segment assets include all operating assets used by a segment and consist primarily of property and equipment, inventories and accounts receivable. Whilst the majority of the assets can be directly attributed to individual business segments, the carrying amounts of certain assets used jointly by two or more segments are allocated to the segments on a reasonable basis.

Segment liabilities include all operating liabilities and consist primarily of trade and other payables. The Group operates substantially in the Kingdom of Bahrain.

UN-AUDITED SUPPLEMENTARY INFORMATION IMPACT OF COVID-19

For the Year Ended 31 December 2020 - Bahraini Dinars

The unprecedented COVID-19 outbreak at the beginning of 2020 came with dire consequences. Actions taken by countries across the globe rolled in a domino effect throughout the globalized economy. The closedown impacted many industries out of which airline and hospitality were the biggest losers. The factors that affected the Group were mostly:

- Almost total inexistence of international travellers and tourists visiting Bahrain
- The closure of King Fahad Causeway had a substantial toll on Bahrain, depriving the most dependant sector on Saudi's influx, hotels, and restaurants.
- On top of that, the suspension of normal restaurant operation (except takeaway), for almost five months period, dragged this sector revenue to the lowest ever seen; major losses were incurred despite all measures and actions taken by the management to mitigate the crisis.
- The restriction on gatherings and meetings resulted in the cancellation of all meetings, events, and weddings.
- The ordinance to close retail businesses impacted our stores' and outlets; nevertheless, the management readiness boosted the e-commerce channels, which alleviated as an all-time operating revenue stream.
- There was a significant slowdown to the entire supply chain.
- Creditors' inability to fulfil their commitments, led to an increase in provisions.
- Inventories were expiring as a consequence of poor or no demand.
- Projects were put on hold, except for the Airport Hotel planned to open in a few weeks.
- Increase in cybersecurity risks
- Lack of employees' confidence in jobs' continuity.

In light of the above challenges, the Gulf Hotels Group trading was hugely affected and the Group's management strived to minimize the damage from the biggest crisis to face by the Group in its fifty years of history. The major challenges included:

- Zero income was reported by some units against large fixed and operational costs.
- A decrease in lease revenues.
- Trade imbalance.
- Cutting through the restructuring of the workforce across the entire hierarchy.
- Cutting costs via extreme controls.
- Embracing a suddenly emerging shift towards change.
- Embracing remote working as a contingency to safeguard our staff.
- Introducing a raft of new procedures, particularly in the area of hygiene and sanitation.
- Creating exhaustive weekly reports for sound and timely decision making as crisis response.
- Rapid response to track and trace any possible positive virus case, isolating staff to keep the team at large safe.
- Changes to the marketing plan to address customer concerns of hygiene and safety during the pandemic
- Mitigating a global economic downturn resulting in lesser consumer spending along with a decrease in consumers' confidence.
- Accepting that losses to incur are inevitable facts and the most important is keeping the business afloat as the top priority.

While uncertainty reigns about reopening some sections of the business and what the "new normal" will be, our approach is focused on the best practices during this current period:

- By improving the health and safety standard operating procedures and techniques
- Adopting the best practices to safeguard our staff, our clients and preventing virus transmission
- Practicing cash disinfection and utilizing wireless payment technologies.
- Rotating staff to support other divisions where the business exists.
- Sharing resources across the Group.

UN-AUDITED SUPPLEMENTARY INFORMATION IMPACT OF COVID-19

For the Year Ended 31 December 2020 - Bahraini Dinars

(Continued)

- Empowering the Shared Services Centre to reduce overheads.
- Attending all actions that can be taken as stated by laws and regulations.
- Financially developing forecast models simulating all possible scenarios, and actions.
- Benefiting in all extents from our Research and Sourcing (Procurement) functions.
- Avoiding any outsourcing by benefiting our staff and senior management soft skills in multitasking roles.

The above summarizes the impact of the crisis from an operational perspective, while our financials have recorded for the year 2020 a GOP of BD 7.4m reflecting the Group's ability to generate cash in very difficult trading conditions, while the net loss of BD 8.1m is substantiated as follows:

1. A 48.83% decrease in sales
2. Most of the constant elements remained the same as the previous year i.e. depreciation and loan interest.
3. BD 576,126 increase in provisions for doubtful debts.
4. Impairment of land BD 5m

We are not foreseeing any going concern qualification for GHG despite the adverse decrease in revenue, that we aligned with a decrease in costs in general, and optimization of our costs of sales; any recorded losses won't have a severe impact on the equity of the company. GHG's business structure is continuously evolving and scrapping unnecessary processes or roles; GHG doesn't have any legal challenges; finally, GHG has robust accounting and reporting systems in place with a professional team continuously monitoring and reporting trends and financial indicators.

Since the vaccine availability had become a reality, diverse types of cures are getting announced and applied in different countries, while the Government's successful containment plans have proven efficient for maintaining the country's rates at very acceptable levels, life and economy cycles remain in motion.

GHG's future cash flows' forecasts do not raise any red flags about the business "going concern" when it comes to working capital and liquidity; even in the worst-case scenarios, GHG's financial and shareholders have ample resources to continue to operational existence for a year to come.

The below statutory auditors' condensed interim financial information for the year ended 31st December 2020 are as follows:

Financial statement area	Nature of impact	Amount (BD)
Operating Income	Decrees	(18,834,180)
Government grants	Increase	922,878
Property impairment	Increase	(5,064,680)
Impairment allowance of trade receivable	Increase	(576,126)
Accumulated losses		(8,127,985)

No other significant impact has been noted by the management on other financial statement areas during the period ended 31st December 2020.

Board and Directors' Responsibilities

The Board of Directors is accountable to shareholders for the proper and prudent investment and preservation of shareholder interests. The Board's role and responsibilities include but not limited to:

- Monitoring the overall business performance,
- Monitoring management performance and succession plan for senior management,
- Monitoring conflicts of interest and preventing abusive related party transactions,
- Accurate preparation of the end of year financial statements,
- Convening and preparing the Shareholders meeting,

UN-AUDITED SUPPLEMENTARY INFORMATION IMPACT OF COVID-19

For the Year Ended 31 December 2020 - Bahraini Dinars

(Continued)

- Recommend dividend payable to shareholders and ensure its execution,
- Adapt, implement and monitor compliance with the Company's code of ethics,
- Review the company's objectives and policies relating to social responsibilities,
- Select, interview and appoint Chief Executive Officer and other selected members of the executive management.

In this respect, the Directors remain individually and collectively responsible for performing all Board of Director's tasks.

Material transactions requiring Board approval

The following material transactions require board review, evaluation and approval:

- The Company strategy,
- The annual budget,
- Major resource allocations and capital investments, and
- Management responsibilities and training, development and succession plan for Senior Management.

Election system of directors and termination process

Election / re-election of Board members take place every three years at the meeting of the Shareholders.

Termination of a Board member's mandate usually occurs by dismissal at the meeting of the Shareholders or by the member's resignation from the Board of Directors.

Directors trading of Company shares

During 2020 no trading by our Directors, (2019: no trading in GHG).

Code of conduct and procedures adopted by the Board for monitoring compliance

The Board and the Company's employees are expected to maintain the highest level of corporate ethics and personal behavior. The Company has established a Code of Conduct which provides an ethical and legal framework for all employees in the conduct of its business. The Code of Conduct defines how the Company relates to its employees, shareholders and the community in which the Company operates.

The Board of Directors has adopted the Gulf Hotels Group Code of Business Conduct and a Company Whistleblower policy to monitor compliance with company ethics.

Corporate Governance Disclosures

For the Year Ended 31 December 2020 - Bahraini Dinars

1. BOARD, BOARD MEMBERS AND MANAGEMENT

The Board of Directors consist of 10 members as of 31 December 2020 (2019: 10 members). The Board has been elected in March 2018 for a period of 3 years. Election which is due on March 2021 has been postponed to September 2021.

(iii) Corporate Governance

Corporate governance code

The Board and the Company's employees are expected to maintain the highest level of corporate ethics and personal behavior. The Company has established a Code of Conduct which provides an ethical and legal framework for all employees in the conduct of its business. The Code of Conduct defines how the Company relates to its employees, shareholders and the community in which the Company operates. The Board of Directors has adopted the code of Business Conduct and a Company Whistleblower policy to monitor compliance with company ethics.

Changes to the Group's corporate governance guidelines

None.

Corporate Governance Disclosures *(Continued)*

For the Year Ended 31 December 2020 - Bahraini Dinars

Compliance with the corporate governance code

The Board of Directors has adopted the Corporate Governance Code and a Company Whistleblower policy to monitor compliance with company ethics.

The Code of Conduct provides clear directions on conducting business internationally, interacting with governments, communities, business partners and general workplace behavior having regard to the best practice corporate governance models. The Code of Conduct sets out a behavioral framework for all employees in the context of a wide range of ethical and legal issues. The Code of Conduct will be published in the 'Corporate Governance' section of the Company's website.

Conflict of interest:

In 2020 and 2019, no instances of conflict of interest have arisen. In the instance of a conflict of interest arising a result of any business transaction or any type of resolution to be taken, the concerned Board member shall refrain from participating at the discussion of such transaction or resolution to be taken. In this respect, GHG's Board members usually inform the Board of a potential conflict of interest prior to the discussion of any transaction or resolution. The concerned Board member(s) also refrain from voting in any instance where a conflict of interest shall arise.

Evaluation of Board and Chairman Performance

This is discussed in the Annual General Meeting and will also be taken up as part of Corporate Governance Code.

CEO Performance

This is discussed in the Board Meeting and also taken up in the Nomination and Remuneration Committee as part of Corporate Governance Code.

Means of communication with shareholders and investors

The Company is committed to providing relevant and timely information to its shareholders in accordance with its continuous disclosure obligations under the Corporate Governance Code.

Information is communicated to shareholders through the distribution of the Company's annual report and other communications. All releases are posted on the Company's website and released to the shareholders in a timely manner.

The Company Secretary is responsible for communications with the shareholders and ensuring that the Company meets its continuous disclosure obligations.

Management of principal risks and uncertainties faced by the Group

The Board as a whole and management are assessing the risk from time to time. Board of Directors discuss and take proper measures for risks faced by the Group.

Review of internal control processes and procedures

The Review of Internal control process and procedures is performed regularly by the Company's internal auditors to ensure efficiency.
