

**Gulf Hotels Group B.S.C.**

**CHAIRMAN REPORT,  
INDEPENDENT AUDITOR'S REPORT AND  
CONSOLIDATED FINANCIAL STATEMENTS**

**31 DECEMBER 2025**

## Chairman Report

On behalf of the Board of Directors, I have the pleasure of presenting the Financial Statements of the Gulf Hotels Group BSC, for the year ended 31<sup>st</sup> December 2025. I am pleased to announce that The Group has achieved an outstanding financial result for the year ended 31 December 2025, achieving net profit of BD 9.8 compared to BD 8.9 million last year, reflecting an increase of 10.4%.

The total comprehensive income reached BD 10.5 million, an increase of 53.5% compared with previous year and delivering a double-digit growth in profitability. The strong financial results reflect our steadfast commitment to operational excellence, innovation, and sustainable growth across all business segments. The Group remains well-positioned to drive continued expansion, enhance its market share, and deliver sustained value to our shareholders.

## Results

- Total income **BD 43,041,116**
- Net Profit **BD 9,780,859**

## Proposed Appropriations

Considering the positive financial results achieved by the company, the Board of Directors are pleased to recommend for the approval of shareholders the following appropriations:

- Dividend of 25% (BD 5,643,512) equal to 25 fils per share.
- Board of Director's remuneration BD 225,000

The dividend distribution reflects the Group's continued commitment to delivering attractive and sustainable returns to its shareholders.

## Future Prospects

Looking ahead to 2026 and beyond, our outlook remains optimistic as we pursue growth opportunities in the Kingdom of Bahrain and across the region. The Group remains well positioned to generate sustainable long-term value for shareholders and stakeholders as we continue to execute our strategy with prudence, discipline, and a clear focus on growth.

## **Acknowledgments**

On behalf of the shareholders and the Board of Directors of The Gulf Hotels Group BSC, I would like to express our sincere gratitude and appreciation to H.M. King Hamad Bin Isa Al Khalifa, HRH the Crown Prince and Prime Minister Salman Bin Hamad Al Khalifa, the Ministers, Undersecretaries, Directors, and Heads of Government Departments, for the immeasurable interest, guidance, and encouragement accorded to Gulf Hotels Group.

Equally, we are grateful to our clients, patrons, and most of all, to the people of Bahrain for your outstanding support, trust, and confidence as we look to sustain the highest level of hospitality service.

The success of the Company would not have been possible without the hard work and dedication of the Company's management and staff. The Board of Directors join me in acknowledging the untiring efforts of the Gulf Hotels Group teams. To our Group Chief Executive Officer, Ahmed Janahi, his management team and all of our employees, your commitment to service has been exemplary and you have our grateful thanks.

As we move into 2026, we are confident in our ability to continue the momentum and deliver another year of growth and success.

**Mr. Fawzi Kanoo**  
Chairman

## **INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF GULF HOTELS GROUP B.S.C.**

### **Report on the Audit of the Consolidated Financial Statements**

#### *Opinion*

We have audited the accompanying consolidated financial statements of Gulf Hotels Group B.S.C. ("the Company") and its subsidiaries (together "the Group"), which comprise the consolidated statement of financial position as at 31 December 2025, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of cash flows and consolidated statement of changes in equity for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2025, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB).

#### *Basis for opinion*

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants* (including International Independence Standards) (IESBA Code), as applicable to audits of financial statements of public interest entities, together with the ethical requirements that are relevant to audits of the financial statements of public interest entities in the Kingdom of Bahrain, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### *Key audit matters*

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements for the year ended 31 December 2025. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

**INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF  
GULF HOTELS GROUP B.S.C. (CONTINUED)**

**Report on the Audit of the Consolidated Financial Statements (continued)**

*Key audit matters (continued)*

*Assessments for impairment of property and equipment*

Refer to note 2 for impairment policy, note 3 for estimate and judgement and note 4 on disclosure of property and equipment in the consolidated financial statements.

<b>Key audit matter</b>	<b>How our audit addressed the key audit matter</b>
<p>At 31 December 2025, the Group held property and equipment of BD 73,669 thousand.</p> <p>Property and equipment was important to our audit due to the size of the carrying value of the property and equipment (63% of the total assets as at 31 December 2025) as well as the judgement involved in the assessment of the recoverability of its carrying value.</p> <p>The recoverability of the carrying value of the property and equipment is, in part, dependent on the Group's ability to generate sufficient future profits. This assessment requires management to make assumptions in the underlying cash flow forecasts in respect of factors such as occupancy rate, room rents and sales levels of food and beverages, inflation and overall market and economic conditions of the Hotels within the Group.</p>	<p>Our audit procedures included, amongst others:</p> <ul style="list-style-type: none"> <li>- Review of the Group's impairment policy to ensure its adherence to requirement of IFRS Accounting Standards;</li> <li>- Corroborating the key inputs used in management's impairment calculations and evaluating the appropriateness of the methodology applied by the Group in assessing the impairment of property and equipment.</li> <li>- Ensuring consistent application of the impairment assessment methodology;</li> <li>- Checking the arithmetical accuracy of the calculation used in the valuation; and</li> <li>- Evaluating the adequacy of disclosures in the consolidated financial statements.</li> </ul>

## **INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF GULF HOTELS GROUP B.S.C. (CONTINUED)**

### **Report on the Audit of the Consolidated Financial Statements (continued)**

#### *Other information included in the Group's 2025 annual report*

Other information consists of the information included in the Group's 2025 Annual Report, other than the consolidated financial statements and our auditor's report thereon. The Board of Directors is responsible for the other information. Prior to the date of this auditors' report, we obtained the Chairman's Report which form part of the annual report, and the remaining sections of the annual report are expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information obtained prior to the date of the auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### *Responsibilities of the Board of Directors for the consolidated financial statements*

The Board of Directors is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards, and for such internal control as the Board of Directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Board of Directors is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

#### *Auditor's responsibilities for the audit of the consolidated financial statements*

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

## INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF GULF HOTELS GROUP B.S.C. (CONTINUED)

### Report on the Audit of the Consolidated Financial Statements (continued)

#### *Auditor's responsibilities for the audit of the consolidated financial statements (continued)*

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the Group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for the purpose of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

## INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF GULF HOTELS GROUP B.S.C. (CONTINUED)

### Report on the Audit of the Consolidated Financial Statements (continued)

#### *Auditor's responsibilities for the audit of the consolidated financial statements (continued)*

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Report on Other Legal and Regulatory Requirements

We report that:

- a) As required by the Bahrain Commercial Companies Law:
  - i) the Company has maintained proper accounting records and the consolidated financial statements are in agreement therewith;
  - ii) the financial information contained in the Chairman's Report is consistent with the consolidated financial statements; and
  - ii) satisfactory explanations and information have been provided to us by management in response to all our requests.
- b) we are not aware of any violations of the Bahrain Commercial Companies Law, the Central Bank of Bahrain (CBB) Rule Book (applicable provisions of Volume 6) and CBB directives, regulations and associated resolutions, rules and procedures of the Bahrain Bourse or the terms of the Company's memorandum and articles of association during the year ended 31 December 2025 that might have had a material adverse effect on the business of the Group or on its consolidated financial position.
- c) As required by Article 8 of section 2 of Chapter 1 of the Bahrain Corporate Governance Code, we report that the Company:
  - i) has appointed a Corporate Governance Officer; and
  - ii) has a board approved written guidance and procedures for corporate governance.

The Partner in charge of the audit resulting in this independent auditor's report is Nader Rahimi.

The retained earnings include statutory reserves of BD 75,000 as at 31 December 2025 (2024: BD 75,000) relating to Bahrain Tourism Company - Crowne Plaza (Bahrain) W.L.L., Gulf Hotel Laundry Services W.L.L., and Novotel Bahrain Al Dana Resort W.L.L. the wholly owned subsidiaries of the Group.

# Gulf Hotels Group B.S.C.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

### 1 CORPORATE INFORMATION AND ACTIVITIES

Gulf Hotels Group B.S.C. (the "Company") is a public joint stock company incorporated in the Kingdom of Bahrain and registered with the Ministry of Industry and Commerce under commercial registration (CR) number 950 and listed on Bahrain Bourse. The postal address of the Company's registered Head Office is at Office 1001, Building 15, Road 3801, Block 338, Manama, Kingdom of Bahrain. The Group is engaged in the business providing hotel services, import and sale of food and beverages and investing activities.

This consolidated financial statements comprise the results of the Company and its subsidiaries (collectively, "the Group") for the year ended 31 December 2025.

The Group owns and operates the Gulf Hotel, Novotel Bahrain Al Dana Resort and Crown plaza Hotel in the Kingdom of Bahrain and Grand Mercure Hotel Business Bay in Dubai (formerly Gulf Court Hotel Business Bay), United Arab Emirate. Additionally, the Group oversees the retail operations of Gulf Brand International in the Kingdom of Bahrain, GHG Colombo in Sri Lanka. Moreover, the Group manages multiple restaurants owned by GHG Hospitality W.L.L. and provides the laundry services through Gulf Hotel Laundry Services W.L.L. The Group also provides management services to The Asdal Gulf-inn Seef, in the Kingdom of Bahrain. The Group is also a shareholder and operator of Bahrain Airport Hotel Company and Ocean Paradise Resort, Zanzibar, Republic of Tanzania.

The Group comprises the Company and the following subsidiaries, associates and a joint venture:

Name	Ownership Interest		Relationship	Country of incorporation	Principal activities
	31 December 2025	31 December 2024			
Gulf Hotel Laundry Services W.L.L.	100%	100%	Subsidiary	Kingdom of Bahrain	Provision of laundry services

\* Percentage of ownership interest is calculated based on the investee's share capital net of treasury shares.

\*\* The investment is accounted for as a joint venture based on shareholders' agreement whereby both parties agreed to share decision making.

The consolidated financial statements were authorised for issue in accordance with a resolution of the Board of Directors on 22 February 2026.

**2 MATERIAL ACCOUNTING POLICIES**

**Basis of preparation**

The consolidated financial statements are prepared under the historical cost convention, except for investments at fair value through other comprehensive income that have been measured at fair value.

**Statement of compliance**

The consolidated financial statements of the Group have been prepared in accordance with IFRS Accounting Standards, as issued by the International Accounting Standards Board (IASB), and in conformity with the Bahrain Commercial Companies Law, the Central Bank of Bahrain (CBB) Rule Book (applicable provisions of Volume 6) and CBB directives, regulations and associated resolutions, rules and procedures of the Bahrain Bourse.

**Functional and presentation currency**

The consolidated financial statements have been presented in Bahraini Dinars (BD) which is the functional currency of the Company and the presentation currency of the Group.

**Basis of consolidation**

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at 31 December 2025. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);

As at 31 December 2025

## 2 MATERIAL ACCOUNTING POLICIES (continued)

### Basis of consolidation (continued)

- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- the contractual arrangement with the other vote holders of the investee;
- rights arising from other contractual arrangements; and
- the Group's voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group obtains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the shareholders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses, cash flows and unrealised gains or losses relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

### New and amended standard effective from 1 January 2025

The accounting policies adopted in the preparation of these consolidated financial statements are consistent with those used in the previous year, except for amended standard adopted by the Group as of 1 January 2025. The Group has not early adopted any new and amended standards that has been issued but is not yet effective.

- *Lack of exchangeability – Amendments to IAS 21 The Effects of Changes in Foreign Exchange Rates – the amendments specifies how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows. The amendments did not have a material impact on the Group's financial statements.*

The adoption of this amendment did not have any effect on the Group's consolidated financial statements.

### New and amended standards and improvements issued but not yet effective

New and amended standards and improvement issued but not yet effective up to the date of issuance of the Group's consolidated financial statements are disclosed below. The Group intends to adopt these new and amended standards and improvement, if applicable, when they become effective:

As at 31 December 2025

## 2 MATERIAL ACCOUNTING POLICIES (continued)

### New and amended standards issued but not yet effective (continued)

- *Amendments to IFRS 10 and IAS 28 – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture – In December 2015, the IASB issued these amendments which clarify that a full gain or loss is recognised when a transfer to an associate or joint venture involves a business as defined in IFRS 3 Business Combinations. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognised only to the extent of unrelated investors’ interests in the associate or joint venture. The effective date for adoption of these amendments has been deferred indefinitely;*
- *IFRS 18 Presentation and Disclosure in Financial Statements - In April 2024, the IASB issued IFRS 18, which replaces IAS 1 Presentation of Financial Statements. IFRS 18 introduces new requirements for presentation within the statement of profit or loss, including specified totals and subtotals. Furthermore, entities are required to classify all income and expenses within the statement of profit or loss into one of five categories: operating, investing, financing, income taxes and discontinued operations, whereof the first three are new.*

*It also requires disclosure of newly defined management-defined performance measures, subtotals of income and expenses, and includes new requirements for aggregation and disaggregation of financial information based on the identified ‘roles’ of the primary financial statements (PFS) and the notes.*

*In addition, narrow-scope amendments have been made to IAS 7 Statement of Cash Flows, which include changing the starting point for determining cash flows from operations under the indirect method, from ‘profit or loss’ to ‘operating profit or loss’ and removing the optionality around classification of cash flows from dividends and interest. In addition, there are consequential amendments to several other standards. IFRS 18, and the amendments to the other standards, are effective for reporting periods beginning on or after 1 January 2027, but earlier application is permitted and must be disclosed. IFRS 18 will apply retrospectively;*

- *IFRS 19 Subsidiaries without Public Accountability: Disclosures - In May 2024, the IASB issued IFRS 19, which allows eligible entities to elect to apply its reduced disclosure requirements while still applying the recognition, measurement and presentation requirements in other IFRS accounting standards. To be eligible, at the end of the reporting period, an entity must be a subsidiary as defined in IFRS 10, cannot have public accountability and must have a parent (ultimate or intermediate) that prepares consolidated financial statements, available for public use, which comply with IFRS accounting standards.*

*IFRS 19 will become effective for reporting periods beginning on or after 1 January 2027, with early application permitted;*

*As the Group’s equity instruments are publicly traded, it is not eligible to elect to apply IFRS 19.*

- *Amendments to IFRS 9 and IFRS 7 – Classification and Measurement of Financial Instruments – In May 2024, the IASB issued these amendments which:*
  - i) *Clarify that a financial liability is derecognised on the ‘settlement date’, i.e., when the related obligation is discharged, cancelled, expires or the liability otherwise qualifies for derecognition. It also introduces an accounting policy option to derecognise financial liabilities that are settled through an electronic payment system before settlement date if certain*
  - ii) *Clarify how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features.*
  - iii) *Clarify the treatment of non-recourse assets and contractually linked instruments.*

As at 31 December 2025

## 2 MATERIAL ACCOUNTING POLICIES (continued)

### New and amended standards issued but not yet effective (continued)

*Amendments to IFRS 9 and IFRS 7 – Classification and Measurement of Financial Instruments (continued)*

iv) *Require additional disclosures in IFRS 7 for financial assets and liabilities with contractual terms that refer a contingent event (including those that are ESG-linked), and equity instruments classified at fair value through other comprehensive income.*

*The amendments will be effective for annual reporting periods beginning on or after 1 January 2026;*

- *Annual Improvements to IFRS Accounting Standards – Volume 11 – In July 2024, the IASB issued nine narrow scope amendments as part of its periodic maintenance of IFRS accounting standards. The amendments include clarifications, simplifications, corrections or changes to improve consistency in IFRS 1 First-time Adoption of International Financial Reporting Standards, IFRS 7 Financial instruments: Disclosure and its accompanying Guidance on implementing IFRS 7, IFRS 9 Financial Instruments, IFRS 10 Consolidated Financial Statements and IAS 7 Statements of Cash Flows. The improvement will be effective for reporting periods beginning on or after 1 January 2026. Earlier application is permitted and must be disclosed;*
- *Translation to a Hyperinflationary Presentation Currency – Amendments to IAS 21: In November 2025, the Board issued Translation to a Hyperinflationary Presentation Currency – Amendments to IAS 21. The amendments require translation from a non-hyperinflationary functional currency into a hyperinflationary presentation currency at the closing rate. The amendments apply for annual reporting periods beginning on or after 1 January 2027 and earlier application is permitted; and*
- *Contracts Referencing Nature-dependent Electricity – Amendments to IFRS 9 and IFRS 7 – In December 2024, the IASB issued Amendments to IFRS 9 and IFRS 7 - Contracts Referencing Nature-dependent Electricity. The amendments apply only to contracts that reference nature-dependent electricity; the amendments:*
  - i) *Clarify the application of the ‘own-use’ requirements for in-scope contracts.*
  - ii) *Amend the designation requirements for a hedged item in a cash flow hedging relationship for in-scope contracts.*
  - iii) *Add new disclosure requirements to enable investors to understand the effect of these contracts on a Group’s financial performance and cash flows.*

*The amendments will take effect for annual reporting periods starting on or after 1 January 2026. Early adoption is allowed, but it must be disclosed. The amendments concerning the own-use exception are to be applied retrospectively, while the hedge accounting amendments should be applied prospectively to new hedging relationships designated from the initial application date. Additionally, the IFRS 7 disclosure amendments must be implemented alongside the IFRS 9 amendments. If an entity does not restate comparative information, it cannot present comparative disclosures.*

The Group management is currently assessing the impact of the above new and amended standards and improvement on the consolidated financial statements of the Group.

### Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at acquisition date fair value, and the amount of any non-controlling interests in the acquiree plus, if the business combination is achieved in stages, the fair value of the existing equity interest in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree’s identifiable net assets. Acquisition-related costs are expensed as incurred and included in profit or loss.

As at 31 December 2025

## 2 MATERIAL ACCOUNTING POLICIES (continued)

### Business combinations and goodwill (continued)

The Group determines that it has acquired a business when the acquired set of activities and assets include an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired process is considered substantive if it is critical to the ability to continue producing outputs, and the inputs acquired include an organised workforce with the necessary skills, knowledge, or experience to perform that process or it significantly contributes to the ability to continue producing outputs and is considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of IFRS 9 Financial Instruments, is measured at fair value with the changes in fair value recognised in profit or loss in accordance with IFRS 9. Other contingent consideration that is not within the scope of IFRS 9 is measured at fair value at each reporting date with changes in fair value recognised in profit or loss.

Goodwill is initially measured at cost (being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests and any previous interest held over the net identifiable assets acquired and liabilities assumed). If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in profit or loss. After initial recognition, goodwill is measured at cost less any accumulated impairment losses.

### Current versus non-current classification

The Group presents assets and liabilities in the consolidated statement of financial position based on a current/non-current classification.

An asset is classified as current when it is:

- expected to be realised or intended to be sold or consumed in the normal operating cycle;
- held primarily for the purpose of trading;
- expected to be realised within twelve months after the reporting period; or
- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- it is expected to be settled in the normal operating cycle;
- it is held primarily for the purpose of trading;
- it is due to be settled within twelve months after the reporting period; or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

As at 31 December 2025

## 2 MATERIAL ACCOUNTING POLICIES (continued)

### Fair value measurement

The Group measures financial instruments such as investment, at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Group's management, with discussion with the Investment Committee, determines the policies and procedures for both recurring fair value measurement, such as investments.

External valuers are involved for valuation of significant assets, such as property and equipment, investment properties and investments, and significant liabilities, such as contingent consideration. Involvement of external valuers is decided annually after discussion with the Group's Board of Directors. Selection criteria includes market knowledge, reputation, independence and whether professional standards are maintained.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

As at 31 December 2025

## 2 MATERIAL ACCOUNTING POLICIES (continued)

### Foreign currency

The Group's consolidated financial statements are presented in Bahraini Dinars (BD) which is also the Company's functional currency. For each entity, the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency. The Group uses the direct method of consolidation and has elected to recycle to profit or loss the gain or loss that arises from using this method.

#### *Transactions and balances*

Transactions in foreign currencies are initially recorded at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency spot rate of exchange at the reporting date.

All differences arising on settlement or translation of monetary items are taken to the profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in other comprehensive income or profit or loss are also recognised in other comprehensive income or profit or loss, respectively).

In determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of advance consideration.

#### *Group companies*

On consolidation, the assets and liabilities of foreign operations are translated into BD at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at the weighted average exchange rates for the year. The exchange differences arising on the translation for consolidation are recognised in other comprehensive income. On disposal of a foreign operation, the component recognised in the consolidated statement of changes in equity relating to that particular foreign operation is recognised in profit or loss.

### Property and equipment

#### *Recognition and measurement*

Property and equipment is stated at cost, net of accumulated depreciation and impairment loss, if any. Such cost includes the cost of replacing a part of the property and equipment and borrowing costs for long-term construction projects if the recognition criteria are met.

When significant parts of property and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the property and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss when incurred.

As at 31 December 2025

## 2 MATERIAL ACCOUNTING POLICIES (continued)

### Property and equipment (continued)

#### *Capital work-in-progress*

The capital work-in-progress is stated at cost less any identified impairment loss and comprises expenditure incurred on the acquisition and installation of property and equipment which is transferred to the appropriate category of asset and depreciated as and when assets are available for use.

#### *Subsequent expenditure*

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group. If subsequent expenditure is related to a previously capitalised project, it is depreciated over the remaining useful life.

#### *Depreciation*

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets, except for freehold land and capital work-in-progress, as follows:

- |  |   |
|--|---|
| - Buildings on freehold land               |   |
| • original structure                       | 40 years  |
| • subsequent improvements                  | Over the remaining life of the buildings they relate to, or earlier, as appropriate |
| - Furniture, fixtures and office equipment | 2 to 7 years  |
| - Equipment and motor vehicles             | 2 to 10 years   |

The carrying values of property and equipment are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amount, being the higher of their fair value less costs to sell and their value in use.

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in profit or loss in the year the asset is derecognised.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year-end and adjusted prospectively if appropriate.

### Investment properties

Investment properties are properties held to earn rentals or for capital appreciation or both and are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at cost less accumulated depreciation and accumulated impairment losses, if any.

The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met; and excludes the costs of day to day servicing of an investment property. Depreciation on investment properties is calculated on a straight-line method over the estimated useful lives of 30 years.

Investment properties are derecognised either when they have been disposed off (i.e., at the date the recipient obtains control) or when they are permanently withdrawn from use and no future economic benefits expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition. In determining the amount of consideration from the derecognition of investment property the Group considers the effects of variable consideration, existence of a significant financing component, non-cash consideration, and consideration payable to the buyer (if any).

As at 31 December 2025

## 2 MATERIAL ACCOUNTING POLICIES (continued)

### Investment properties (continued)

Transfers are made to (or from) investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property and equipment up to the date of change in use.

Investment property is derecognised either when it has been disposed off (i.e., at the date the recipient obtains control) or when it is permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition. In determining the amount of consideration from the derecognition of investment property, the Group considers the effects of variable consideration, existence of a significant financing component, non-cash consideration, and consideration payable to the buyer (if any) in accordance with the requirements for determining the transaction price in IFRS 15.

### Inventories

Inventories of food and beverages are stated at the lower of cost and net realisable value. Inventories of maintenance and general stores are stated at cost less provision for obsolescence. Costs are those expenses incurred in bringing inventories to their present location and condition and are determined on a weighted average cost basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale.

### Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### *Group as a lessor*

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms and is included in revenue in profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

### Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices or other available fair value indicators.

As at 31 December 2025

## 2 MATERIAL ACCOUNTING POLICIES (continued)

### Impairment of non-financial assets (continued)

The Group bases its impairment calculation on the most recent budgets and forecast calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. A long-term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses of continuing operations are recognised in profit or loss in expense categories consistent with the function of the impaired asset, except for properties previously revalued with the revaluation taken to OCI. For such properties, the impairment is recognised in OCI up to the amount of any previous revaluation.

An assessment is made at each reporting date whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss.

### Investment in associates and a joint venture

The Group holds an interest in a joint venture, Bahrain Airport Hotel Company W.L.L., and an interest in two associates, Bahrain Family Leisure Company B.S.C. and African and Eastern (Bahrain) W.L.L.

The financial statements of both associates and a joint venture are prepared for the same reporting period as the Group. The accounting policies of both companies are aligned with those of the Group. Therefore, no adjustments are made when measuring and recognising the Group's share of the profit or loss of the investees after the date of acquisition.

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The considerations made in determining significant influence or joint control are similar to those necessary to determine control over subsidiaries. The Group's investment in its associates and joint venture are accounted for using the equity method.

Under the equity method, the investment in an associate or a joint venture is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associates or joint venture is included in the carrying amount of the investment and is not tested for impairment separately. Thus, reversals of impairments may effectively include reversal of goodwill impairments. Impairments and reversals are presented within 'Share of results of associates and a joint venture' in profit or loss.

The consolidated statement of profit and loss reflects the Group's share of the results of operations of the associates and joint venture. Any change in other comprehensive income of the associates and joint venture is presented as part of the consolidated statement of other comprehensive income.

As at 31 December 2025

## 2 MATERIAL ACCOUNTING POLICIES (continued)

### Investment in associates and a joint venture (continued)

In addition, when there has been a change recognised directly in the equity of the associates and joint venture, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associates and joint venture are eliminated to the extent of the Group's interest in the associates and joint venture.

The aggregate of the Group's share of results of associates and joint venture is shown on the face of the consolidated statement of profit or loss and represents results after tax and non-controlling interests in the subsidiaries of the associates and joint venture.

The financial statements of the associates or joint venture are prepared for the same reporting period as the Group. Therefore, no adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associates or joint venture. At each reporting date, the Group determines whether there is objective evidence that the investment in the associates or joint venture are impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of its investment in associate and its carrying value, then recognises the loss as 'Share of results of associates and a joint venture' in profit or loss.

Upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

### Financial instruments - recognition and measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### Financial assets

##### *Initial recognition and measurement*

Financial assets are classified, at initial recognition, as measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss (FVTPL). The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient which are measured at the transaction price determined under contracts with customers (refer to accounting policy for revenue from contracts with customers), the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

As at 31 December 2025

## 2 MATERIAL ACCOUNTING POLICIES (continued)

### Financial instruments - recognition and measurement (continued)

#### Financial assets (continued)

##### *Initial recognition and measurement (continued)*

The Group's financial assets include investments, trade receivables and a portion of prepayments and other receivables, cash, bank balances and bank deposits.

##### *Subsequent measurement*

For purposes of subsequent measurement, financial assets are classified in following categories:

- Financial assets at amortised cost;
- Financial assets designated at fair value through other comprehensive income with no recycling of cumulative gains and losses upon derecognition (equity instruments).

##### *Financial assets at amortised cost*

This category is the most relevant to the Group. The Group measures financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Group's financial assets at amortised cost includes trade receivables, a portion of prepayments and other receivables, bank balances and bank deposits.

##### *Financial assets designated at fair value through other comprehensive income (FVOCI).*

##### *Equity instruments*

The Group elected (on an instrument-by-instrument basis) to designate its investments in equity instruments as at FVOCI. Designation at FVOCI is not permitted if the equity investment is held-for-trading.

A financial asset is held-for-trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

The Group has designated most of its investments in equity instruments at FVOCI on initial application of IFRS 9, as the Board of Directors believes that this provides a more meaningful presentation for medium or long-term strategic investments, than reflecting changes in fair value immediately in other comprehensive income.

Financial assets at FVOCI are subsequently measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in investment revaluation reserve. The cumulative gain or loss cannot be reclassified to profit or loss on disposal of the investments.

As at 31 December 2025

## 2 MATERIAL ACCOUNTING POLICIES (continued)

### Financial instruments - recognition and measurement (continued)

#### Financial assets (continued)

##### *Equity instruments (continued)*

Dividends are recognised as dividend income in the profit or loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through other comprehensive income are not subject to impairment assessment.

#### Derecognition of financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either:
  - a) the Group has transferred substantially all the risks and rewards of the asset, or
  - b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

#### Impairment of financial assets

The Group recognises an allowance for expected credit losses (ECLs) for all debt instruments. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

For trade receivables which is the only significant financial asset exposed to credit risk, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for any relevant forward-looking factors.

For other financial assets, ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

As at 31 December 2025

## 2 MATERIAL ACCOUNTING POLICIES (continued)

### Financial instruments - recognition and measurement (continued)

#### Financial assets (continued)

##### Impairment of financial assets (continued)

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

#### Financial liabilities

##### *Initial recognition and measurement*

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Group's financial liabilities mainly include trade payables and a portion of accrued expenses and other liabilities.

##### *Subsequent measurement*

All financial liabilities of the Group are subsequently measured at amortized cost. Such liabilities are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as interest expense in profit or loss.

##### Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit or loss.

##### Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

##### Cash and cash equivalents

Cash and short-term deposits in the statement of financial position comprise cash at banks and on hand and short-term highly liquid deposits with a maturity of six months or less, that are held for the purpose of meeting short-term cash commitments and are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value. For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits with original maturity of three months or less, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

##### Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in profit or loss, net of any reimbursement.

As at 31 December 2025

## 2 MATERIAL ACCOUNTING POLICIES (continued)

### Provisions (continued)

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

### Employees' end of service benefits

The Group makes contributions to relevant Government schemes for its employees in each jurisdiction, calculated as a percentage of the employees' salaries. The Group's obligations are limited to these contributions, which are expensed when due.

The Group also provides for end of service benefits to its expatriate employees. The entitlement to these benefits is based upon the employee's final salary and length of service. The expected costs of these benefits are accrued over the period of employment.

Under a new end of service benefits system for non-Bahraini employees, effective from 1 March 2024, the Group is required to pay the monthly end of service contributions electronically through the Social Insurance Organisation (SIO) portal calculated as a percentage of the employees' salaries. Benefits accrued before 1 March 2024 will remain recorded in the Group's consolidated financial statements and will be paid to the employee as or when the employee leaves the Group.

### Treasury shares

Treasury shares are stated at acquisition cost and are shown as a deduction to equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the treasury shares. Gain or loss arising from the subsequent resale of treasury shares is included in the retained earnings in the consolidated statement of changes in equity. Net movement from repurchase and resales of treasury shares is booked under the treasury shares.

### Earnings per share (EPS)

Basic EPS is calculated by dividing the profit for the year attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is calculated by dividing the profit attributable to ordinary equity holders of the parent (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

### Events after the reporting period

If the Group receives information after the reporting period, but prior to the date of authorisation for issue, about conditions that existed at the end of the reporting period, it will assess whether the information affects the amounts that it recognises in its consolidated financial statements. The Group will adjust the amounts recognised in its consolidated financial statements to reflect any adjusting events after the reporting period and update the disclosures that relate to those conditions in light of the new information. For non-adjusting events after the reporting period, the Group will not change the amounts recognised in its consolidated financial statements, but will disclose the nature of the non-adjusting event and an estimate of its financial effect, or a statement that such an estimate cannot be made, if applicable.

### Cash dividend to shareholders of the Group

The Group recognises a liability to make cash distributions to shareholders of the Group when the distribution is authorised and the distribution is no longer at the discretion of the Group. Under Bahrain Commercial Companies Law, a distribution is authorised when it is approved by the shareholders in their General Meeting. A corresponding amount is recognised directly in equity.

As at 31 December 2025

## 2 MATERIAL ACCOUNTING POLICIES (continued)

### **Value added tax (VAT)**

Revenue, expenses and assets are recognised net of the amount of value added tax, except when the value added tax incurred on purchase of assets or services is not recoverable from the Government, in which case, the value added tax is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.

The net amount of value added tax receivable from, or payable to, the Government is included as part of other receivables or other payables in the consolidated statement of financial position.

### **Revenue recognition**

#### **Revenue from contracts with customers**

The Group is in the business of providing hotel services and import and sale of beverages. Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services, excluding discounts and amounts collected on behalf of third parties such as tourism levy, VAT and accommodation fees etc. The Group has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer. The following specific recognition criteria must also be met before revenue is recognised:

#### *Room revenue*

Room revenue is recognised over time because the customer simultaneously receives and consumes the benefits provided by the Group. Room revenue is recognised based on an output method, over the length of guests stay at the Hotel.

The Group's contracts with its customers generally contains only one performance obligation. In some cases, the Group's contracts for stay at the Hotel are bundled together with the sale of food, beverages and other services. The Group considers room revenue, sale of food and beverages and other services of being distinct and allocates the transaction price to room revenue, sale of food and beverages and other services based on the stand-alone selling prices of rooms, food and beverages and other services.

#### *Sale of food and beverages*

The Group's contracts with customers for the sale of food and beverages generally include one performance obligation. The Group has concluded that revenue from sale of food and beverages should be recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the food and beverages.

#### *Revenue from rendering of services*

Revenue from rendering of services is recognised at point in time when the related services are rendered to the customer.

#### *Revenue from rental income*

Revenue from property leased out under an operating lease are recognised on a straight-line basis over the term of the lease.

#### *Revenue from management fee*

Management fees are recognised when the services are rendered as determined by the management agreement. The variable consideration related to the fees is estimated as per the agreement and constrained until it is highly probable that there is no significant uncertainty regarding the amount of consideration.

#### *Costs to obtain a contract*

The Group pays sales commission to its travel agents for each contract that they obtain for guest bookings.

As at 31 December 2025

## 2 MATERIAL ACCOUNTING POLICIES (continued)

### Revenue recognition (continued)

#### Revenue from contracts with customers (continued)

##### *Costs to obtain a contract (continued)*

The Group applies the optional practical expedient to immediately recognise the commission paid if the amortisation period of the asset that would have been recognised is one year or less. As such, sales commissions are immediately recognised as an expense in profit or loss.

#### Contract balances

##### *Contract assets*

A contract asset is the right to consideration in exchange for goods and services transferred to the customer. If the Group performs by transferring services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. Contract assets are subject to impairment. Refer to accounting policies on impairment of financial assets.

##### *Trade receivables*

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e. only the passage of time is required before payment of the consideration is due). Refer to the accounting policy on "Financial assets".

##### *Contract liabilities*

A contract liability is recognised if a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

#### Other income recognition

##### *Interest income*

Interest income is recorded using the effective interest rate (EIR) method, which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or liability.

##### *Dividend income*

Revenue is recognised when the Group's right to receive the payment is established, which is generally when shareholders of the investee approve the dividend.

##### *Other income*

Other income is recognised on an accrual basis when income is earned.

## 3 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Group's consolidated financial statements requires the Board of Directors to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets, liabilities and the disclosure of contingent liabilities, at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the assets or liabilities affected in future periods.

### Judgements

In the process of applying the Group's accounting policies, the Board of Directors has made the following judgements, which have the most significant effect on the amounts recognised in the consolidated financial statements:

As at 31 December 2025

### 3 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (continued)

#### **Judgements (continued)**

##### *Going concern*

The Group's Board of Directors has made an assessment of the Group's ability to continue as a going concern and is satisfied that the Group has the resources to continue the business for the foreseeable future. Furthermore, the Board of Directors is not aware of any material uncertainties that may cast a significant doubt about the Group's ability to continue as a going concern. Therefore, the consolidated financial statements continue to be prepared on a going concern basis.

##### *Classification of investments*

The Group's management determines the classification of investments on initial recognition as "financial asset at fair value through profit or loss" or "financial asset at fair value through other comprehensive income". The investments are classified as "financial asset at fair value through profit or loss" if they are acquired for the purpose of selling in the near term. All other investments are classified as "financial asset at fair value through other comprehensive income".

##### *Classification of properties*

Properties which are purchased with the intention to earn rental income or capital appreciation or both are classified as investment properties. All other properties are classified as property and equipment.

##### *Property lease classification – Group as lessor*

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the commercial property and the present value of the minimum lease payments not amounting to substantially all of the fair value of the commercial property, that it retains substantially all the risks and rewards incidental to ownership of these properties and accounts for the contracts as operating leases.

##### *Revenue from contracts with customers*

The Group applied the following judgements that significantly affect the determination of the amount and timing of revenue from contracts with customers:

##### *Determining the timing of revenue from room services*

The Group concluded that revenue from room services is to be recognised over time because the customer simultaneously receives and consumes the benefits provided by the Group which demonstrates that the Group's performance obligations are complete as and when customer simultaneously receives and consumes the benefits.

#### **Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared.

Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

##### *Useful lives of property and equipment and investment properties*

The Group's management determines the estimated useful lives of its property and equipment and investment properties for calculating depreciation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. Management reviews the residual values and useful lives annually and future depreciation charges would be adjusted where management believes the useful lives differ from previous estimates.

As at 31 December 2025

**3 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (continued)**

**Estimates and assumptions (continued)**

*Impairment of property and equipment and investment properties*

The Group assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is higher of an asset's or cash-generating unit's (CGU) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessment of the time value of money and the risks specific to the assets.

The Board of Directors do not believe that there is any impairment of property and equipment and investment properties as at 31 December 2025 and 31 December 2024.

*Key assumptions used in value in use calculations*

The calculation of value in use is most sensitive to the following assumptions:

- Estimated room rents in futures;
- Estimated occupancy rates for upcoming years;
- Inflation rate used to extrapolate cash flows;
- Capital expenditure;
- Discount rate;
- Growth rate; and
- Terminal value of property and equipment and investment properties.

*Sensitivity to changes in assumptions*

With regard to the assessment of value in use, management believes that reasonably possible changes in the weighted average cost of capital would cause a material change to the recoverable amount. An increase in weighted average cost of capital by 0.5% (50 basis point) (2024: 0.5% (50 basis point)) (with all other variables remain unchanged) throughout the forecast period could result in the recoverable amount of the CGU to be lower than its carrying value.

Similarly, an decrease in occupancy rate by 3% (2024: 3%) (with all other variables remain unchanged) throughout the forecast period or a reduction in room rental by BD 5 (2024: BD 5) (with all other variables remain unchanged) throughout the forecast period could result in the recoverable amount of the CGU to be lower than its carrying value.

The sensitivity to changes in assumptions will not impact the net carrying value of CGU for the year ended 31 December 2025 (2024: same)

*Allowance for expected credit losses*

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by customer types).

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with the forward-looking information. For instance, if forecast economic conditions (i.e. inflation rate) are expected to deteriorate over the next year which can lead to an increased number of defaults in the consumer sector, the historical default rates are adjusted.

As at 31 December 2025

### 3 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (continued)

#### Estimates and assumptions (continued)

##### *Allowance for expected credit losses*

At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

Any difference between the amounts actually collected in future periods and the amounts expected will be recognised in consolidated statement of profit or loss and other comprehensive income.

##### *Valuation of unquoted investments at fair value through other comprehensive income*

Management uses its best judgement in determining fair values of the unquoted private equity investments by reference to using fair value provided by the investment managers or other appropriate valuation techniques including fair values determined based on unobservable inputs using a market multiples or other appropriate valuation methodologies. Management uses its best judgement, however, the actual amount realised in a future transaction may differ from the current estimate of fair value given the inherent uncertainty surrounding the valuation of unquoted equity investments.

##### *Provision for slow moving and obsolete inventories*

Inventories are held at the lower of cost and net realisable value. When inventories become old or obsolete, an estimate is made of their net realisable value. For individually significant amounts this estimation is performed on an individual basis. Amounts which are not individually significant, but which are old or obsolete, are assessed collectively and a provision applied according to the inventory type and the degree of ageing or obsolescence, based on anticipated realisable value.

Any difference between the amounts actually realised in future periods and the amounts expected will be recognised in profit or loss and other comprehensive income.

### 4 GLOBAL AND DOMESTIC MINIMUM TOP UP TAX

The OECD Global Anti-Base Erosion Pillar Two Model Rules ('GloBE rules') apply to multinational enterprise (MNE) groups with total annual consolidated revenue exceeding EUR 750 million in at least two of the four preceding fiscal years. In line with the requirements of GloBE rules, the Kingdom of Bahrain has issued and enacted Decree Law No. (11) of 2024 ('Bahrain DMTT law') on 1 September 2024 introducing a domestic minimum top-up tax ("DMTT") of up to 15% on the taxable income of Bahrain resident entities of the Group for fiscal years commenced on or after 1 January 2025.

As per the Group's assessment, it has concluded that it is not in scope for Bahrain DMTT law or the GloBE rules as it does not have total annual consolidated revenue exceeding EUR 750 million in at least two of the four preceding fiscal years.

Total comprehensive loss for the year	<u>(42,819)</u>	<u>(85,391)</u>
Group's share of total comprehensive loss for the year 51% (2024: 51%)	<u>(21,838)</u>	<u>(43,549)</u>

The Group's share in associates' and the joint venture's commitments for capital expenditure was BD 134,922 as of 31 December 2025 (2024: BD 85,389) arising from the construction of retail store in Mina Salman, Kingdom of Bahrain, which is expected to be completed by February 2026.

The Group's share in the associates' and joint venture's contingent liabilities as of 31 December 2025, arising in the ordinary course of business which includes an outstanding letter of guarantee and tender cheques amounting to BD 1,250 (2024: BD 1,250).

The share of results of the associate is recognised based on the approved management accounts for the years ended 31 December 2025 and 31 December 2024.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

**8 INVESTMENTS**

	<b>2025</b>	<b>2024</b>
	<b>BD</b>	<b>BD</b>
<i>At fair value through other comprehensive income:</i>		
- Quoted equity investments at FVOCI	<b>8,611,684</b>	8,151,612
- Unquoted equity investments at FVOCI	<b>2,178,343</b>	2,178,343
	<b>10,790,027</b>	10,329,955

Reconciliation of fair value measurement of investments classified as equity instruments designated at fair value through other comprehensive income are as follows:

	<b>2025</b>	<b>2024</b>
	<b>BD</b>	<b>BD</b>
At 1 January	<b>10,329,955</b>	12,109,892
Disposals during the year	<b>(211,317)</b>	-
Net changes in fair values	<b>671,389</b>	(1,779,937)
At 31 December	<b>10,790,027</b>	10,329,955

**Quoted equity investments**

The quoted equity investments include investments in listed equity shares. These investments were irrevocably designated at fair value through OCI as the Group considers these investments to be strategic in nature. Fair values of these equity shares are determined by reference to published price quotations in an active market.

**Unquoted equity investments**

Unquoted equity investments include investments in equity shares of non-listed companies designated at fair value through OCI. These investments were irrevocably designated at fair value through OCI as the Group considers these investments to be strategic in nature.

The fair values of unquoted investments have been estimated using indicative bids provided by the fund administrators, market multiples, adjusted net assets value or other appropriate valuation techniques.

The fair value measurement reconciliation for unquoted investments using Level 3 of fair value measurement, along with the disclosure of significant unobservable inputs employed for valuation, is disclosed in note 30.

**15 SHARE PREMIUM**

The share premium arose on the issuance of new shares and this can only be utilised as stipulated in the Bahrain Commercial Companies Law.

**16 OTHER RESERVES****a) Statutory reserve**

As required by the Bahrain Commercial Companies Law and the Company's articles of association, 10% of the profit for the year is to be transferred to statutory reserve every year. The Company may resolve to discontinue such annual transfers when the reserve totals 50% of the issued and paid-up share capital. The Company discontinued further transfer of profit to statutory reserve as the reserve equalled 50% of the paid-up capital of the Group.

The reserve cannot be utilised for the purpose of distribution except in such circumstances as stipulated in the Bahrain Commercial Companies Law.

**b) General reserve**

The general reserve has been made in accordance with the articles of association of the Group. The Group may resolve to discontinue such annual transfers, when deemed appropriate. There are no restrictions on the distribution of this reserve.

**c) Charity reserve**

The charity reserve has been made in accordance with the articles of association of the Company to support the Group's charitable mission. The Group may resolve to discontinue such annual transfers, when deemed appropriate. There are no restrictions on the distribution of this reserve.

**d) Foreign currency reserve**

The foreign currency translation reserve is used to recognise exchange differences arising from the translation of the financial statements of foreign operation.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

**16 OTHER RESERVES (continued)**

**e) Fair value reserve**

This reserve relates to fair value changes of investments carried at fair value through other comprehensive income.

**17 DIVIDENDS PAID AND PROPOSED**

At the annual general meeting of the shareholders held on 24 March 2025, a final cash dividend of 25 fils per share, totalling BD 5,649,872 for the year ended 31 December 2024 was declared and paid. (2024: At the annual general meeting of the shareholders held on 25 March 2024, a final cash dividend of 25 fils per share, totalling BD 5,649,872 for the year ended 31 December 2023 was declared and paid.).

#### 26 EARNINGS PER SHARE

Basic earnings per share is calculated by dividing the profit or loss for the year attributable to ordinary equity holders of the Group by the weighted average number of ordinary shares outstanding during the year, excluding the average number of ordinary shares purchased by the Group and held as treasury shares and is as follows:

	<b>2025</b>	<b>2024</b>
Profit for the year – BD	<b>9,780,859</b>	8,856,516
Weighted average number of shares, net of treasury shares	<b>225,585,656</b>	225,994,863
Basic and diluted earnings per share (fils)	<b>43</b>	39

Basic and diluted earnings per share are the same as the Company has not issued any instruments that would have a dilutive effect.

There have been no other transactions involving ordinary or potential ordinary shares between the reporting date and the date of issue of these consolidated financial statements, that would have a dilutive effect.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

**27 COMMITMENTS AND CONTINGENCIES**

**a) Commitments**

*Capital expenditure*

As at 31 December 2025, the Group has capital commitments amounted to BD 1,896,675 (2024: BD 3,144,822) arising from multiple contracts. The commitments are expected to be settled within 1 to 2 years from the reporting date.

**b) Contingencies**

At 31 December 2025, the Group had contingent liabilities in respect of the bank guarantees amounting to BD 203,331 (2024: BD 190,264) from which it is anticipated that no material liabilities will arise.

As of 31 December 2025 and as of 31 December 2024, the Group was a party to a small number of legal cases and claims filed against the Group. The Board of Directors are confident that no material liabilities will arise from these cases or claims.

**28 RELATED PARTY TRANSACTIONS AND BALANCES**

Related parties represent shareholders, directors, key management personnel of the Group and entities controlled, jointly controlled or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the Group's management and Board of Directors.

Directors sitting fees	330,007	305,468
	<u>997,882</u>	<u>789,871</u>

**29 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES**

The Group's principal financial liabilities comprise of trade payables and a portion of accrued and other liabilities. The main purpose of these financial liabilities is to finance the Group's day-to-day operations and capital expenditure. The Group has a trade receivables, portion of prepayments and other receivables, cash, bank balances and bank deposit that arise directly from its operations. The Group also holds investments. The Group is exposed to market, credit, liquidity and operational risks.

The Group's Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Group's executive management oversees the management of these risks.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

**29 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)**

The Group's executive management is advises on financial risks and the appropriate financial risk governance framework for the Group. The Group's executive management also provides assurance to the Group's Board of Directors that the Group's financial risk-taking activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with Group policies and Group risk appetite.

The Group Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group Audit Committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

The Board of Directors reviews and agrees policies for managing each of these risks which are summarised below:

**Market risk**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of interest rate risk, equity price risk and foreign currency risk.

The sensitivity of the consolidated statement of profit or loss is the effect of the assumed changes in market risk. This is based on the financial assets and financial liabilities held at 31 December 2025 and at 31 December 2024.

*Interest rate risk*

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group is not exposed to interest rate risk as there are no variable interest-bearing assets or liabilities within Group's portfolio.

*Equity price risk*

The Group's listed and unlisted equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group manages the equity price risk through diversification and placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Group's senior management and Investment Committee on a regular basis. The Group's Investment Committee reviews and approves all equity investment decisions.

The following table demonstrates the sensitivity of the changes in fair value to reasonably possible changes in equity value, with all other variables held constant.

	<i>Change in equity's fair value</i>	<i>Effect on other comprehensive income for the years ended 31 December</i>	
		<i>2025</i>	<i>2024</i>

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

**29 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)**

**Market risk (continued)**

*Concentration of investment portfolio*

Concentration of investment portfolio arises when a number of investments are made in entities engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would be affected by changes in economic, political or other conditions. The Group manages this risk through diversification of investments in terms of investment concentration. The concentration of the Group's investment portfolio as of 31 December, is as follows:

	<b>2025</b>	<b>2024</b>
	<b>BD</b>	<b>BD</b>
Quoted equities	<b>8,611,684</b>	8,151,612
Unquoted equities	<b>2,178,343</b>	2,178,343
	<b>10,790,027</b>	10,329,955

*Foreign currency risk*

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense are denominated in a different currency from the Group's presentational currency) and the Group's net investments in foreign subsidiaries.

As the Bahraini Dinars and United Arab Emirates Dirhams are pegged to the US Dollars, balances in the US Dollars and currencies pegged with the US Dollars are not considered to represent a significant foreign currency risk.

The Group's exposure to foreign currency financial assets and liabilities, is as follows:

The table following indicates the Group's sensitivity to foreign currency exposure at 31 December, as a result of its monetary assets and liabilities. The analysis calculates the effect of a 5% upward movement of the Bahraini Dinar currency rate against the Euros, the Pound Sterling (GBP) and other currencies, with all other variables held constant, on the consolidated statement of profit or loss (due to the fair value of currency sensitive monetary assets and liabilities) and the Group's consolidated statement of other comprehensive income due to changes in the net investment in foreign subsidiaries.

	<b>Change in exchange rates</b>	<b>Effect on profit or loss</b>		<b>Effect on other comprehensive income</b>	
		<b>2025</b>	<b>2024</b>	<b>2025</b>	<b>2024</b>
		<b>BD</b>	<b>BD</b>	<b>BD</b>	<b>BD</b>
Euro	<b>+ 5%</b>	<b>(2,703)</b>	(637)	-	-
Pound Sterling (GBP)	<b>+ 5%</b>	<b>(4,502)</b>	(357)	-	-
Other currencies	<b>+ 5%</b>	<b>(6,014)</b>	(186)	<b>44,976</b>	41,187

A similar decrease in foreign exchange rates would have an equal and opposite impact on profit or loss, other comprehensive income and equity as disclosed above.

**Credit risk**

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily for trade receivables) and from its investing activities, including bank balances and investments in financial instruments.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

**29 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)**

**Credit risk (continued)**

The maximum credit risk exposure at 31 December 2025 and 31 December 2024 is equal to the carrying value of the financial assets shown in the consolidated statement of financial position, which are net of allowance for expected credit losses and write-offs.

*Bank balances, bank deposits and investments in financial instruments*

With respect to credit risk from the financial assets of the Group, which comprise bank balances, bank deposits and investments in financial instruments, the Group's exposure to credit risk arises from default of the counterparty. The Group limits credit risk by dealing only with reputable banks.

*Trade receivables and amounts due from related parties*

The Group trades only with recognised, creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, trade receivables balances are monitored on an ongoing basis with the result that the Group's exposure to expected credit losses is not significant. The management believes that credit risk associated with the amounts due from related parties is assessed to be low.

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for various customer segments with similar loss patterns. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

*Credit risk concentrations*

Concentrations of credit risk arise when a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations of credit risk indicate the relative sensitivity of the Group's performance to developments affecting a particular industry or geographic location.

The Group evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

The Group sells its products and provides its services to a large number of individuals, companies and government agencies. Its five largest customers account for 14.7% of outstanding trade receivables at 31 December 2025 (31 December 2024: 33.41%).

*Maximum exposure to credit risk*

The table below shows the maximum exposure to credit risk for the components of the consolidated statement of financial position headings without taking account of any collateral and other credit enhancements.

	<b>2025</b>	<b>2024</b>
	<b>BD</b>	<b>BD</b>

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

**29 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)**

**Liquidity risk**

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's objective when managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group limits its liquidity risk by ensuring adequate bank facilities are available at all times. The Group's terms of sales require amounts to be paid in advance for retail customer and for corporate customer within 30-60 days of the date of sale. Trade payables are non-interest bearing and are normally settled within 15 to 45 days terms.

The table below summarises the maturity profile of the Group's financial liabilities as at 31 December, based on contractual undiscounted payment and current market interest rates.

	<i>On demand BD</i>	<i>Up to 3 months BD</i>	<i>3 to 12 months BD</i>	<i>Total BD</i>

**Capital management**

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the years ended 31 December 2025 and 31 December 2024, respectively. Equity comprises of share capital, treasury shares, share premium, other reserves and retained earnings attributable to the shareholders of Gulf Hotels Group B.S.C. and is measured at BD 110,251,712 as at 31 December 2025 (2024: BD 105,532,399).

**30 FAIR VALUE MEASUREMENT**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

*Fair value of financial instruments*

Financial instruments of the Group comprise of financial assets and financial liabilities.

Financial assets consist of investments (other than investment in associates and a joint venture), trade receivables, a portion of prepayments and other receivables and cash and bank balances and bank deposits. Financial liabilities consist of trade payables and a portion of accrued expenses and other liabilities.

The fair values of the Group's financial instruments are not materially different from their carrying values at the date of the consolidated statement of financial position.

Fair value of financial instruments is estimated based on the following methods and assumptions:

- a) Cash and bank balances and bank deposits, trade receivables, a portion of prepayments and other receivables, trade payables and portion of accrued expenses and other liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments;
- b) The fair values of the quoted investments are determined by reference to published price quotations in an active market and the fair values of unquoted investments have been estimated using indicative bids provided by the fund administrators, using of recent arm's length market transactions, current fair value of another similar instrument or other appropriate valuation techniques.

*Fair value of non-financial instruments*

The Group does not measured its non-financial instruments at fair value. However, the Group disclosure the fair value of its investment properties at reporting date and disclosures relating to the fair value have been disclosed in note 6.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

**30 FAIR VALUE MEASUREMENT (continued)**

*Fair value hierarchy*

The following table provides the fair value measurement hierarchy of the Group's assets and liabilities measured at fair value:

		<i>Fair value measurement using</i>			
		<i>Quoted prices in active markets</i>	<i>Significant observable inputs</i>	<i>Significant unobservable inputs</i>	
<b>31 December 2025</b>	<b>Date of valuation</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
<b>Assets measured at fair value</b>		<b>BD</b>	<b>BD</b>	<b>BD</b>	<b>BD</b>
<i>Investments at fair value through other comprehensive income (note 8):</i>					
- quoted investments	31 Dec 2025	<b>8,611,684</b>	-	-	<b>8,611,684</b>
- unquoted investments	31 Dec 2025	-	-	<b>2,178,343</b>	<b>2,178,343</b>
		<b>8,611,684</b>	-	<b>2,178,343</b>	<b>10,790,027</b>
		<i>Fair value measurement using</i>			
		<i>Quoted prices in active markets</i>	<i>Significant observable inputs</i>	<i>Significant unobservable inputs</i>	
<b>31 December 2024</b>	<b>Date of valuation</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
<b>Assets measured at fair value</b>		<b>BD</b>	<b>BD</b>	<b>BD</b>	<b>BD</b>
<i>Investments at fair value through other comprehensive income (note 8):</i>					
- quoted investments	31 Dec 2024	8,151,612	-	-	8,151,612
- unquoted investments	31 Dec 2024	-	-	2,178,343	2,178,343
		<b>8,151,612</b>	-	<b>2,178,343</b>	<b>10,329,955</b>

**Liabilities measured at fair value:**

There were no liabilities measured at fair value as of 31 December 2025 and 31 December 2024.

During the years ended 31 December 2025 and 31 December 2024, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurements.

Level 3 equity securities have been estimated using fair value provided by the investment managers or other appropriate valuation techniques including fair values determined based on unobservable inputs using market multiples or other appropriate valuation methodologies.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

**30 FAIR VALUE MEASUREMENT (continued)**

**Reconciliation of fair value measurements of level 3 financial instruments**

Reconciliation of fair value measurement of unquoted investments classified as equity instruments designated at fair value through OCI (Level 3):

	<b>2025</b>	<b>2024</b>
	<b>BD</b>	<b>BD</b>
Balance at 1 January	<b>2,178,343</b>	2,348,399
Net changes in fair values	-	(170,056)
At 31 December	<b>2,178,343</b>	2,178,343

**31 SEGMENT REPORTING**

For management purposes, the Group is organized into business units based on their products and services and has three reportable operating segments, as follows:

Hotel room operations	Hotel room and rental and management of executive apartments and offices and provisioning of automatic laundry services.
Food and beverages	Retail sale of food and beverages and convention operations.
Investments and other activities	Investment activities of the Group.

The operations of Gulf Brands International and the retail sales of food and beverages of the Gulf Hotel Group and the convention operations of the Gulf Convention Centre have been aggregated for segmental reporting in food and beverage.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which in certain respects, as explained later in a table, is measured differently from operating profit or loss in the consolidated financial statements.

Transfer prices between operating segments are set in a manner similar to transactions with third parties.

The Group's geographical segments are based on the location of the Group's assets. Sales to external customers disclosed in geographical segments are based on the geographical location of its customers.

Segment assets include all operating assets used by a segment and consist primarily of property and equipment, inventories and trade receivable. Whilst the majority of the assets can be directly attributed to individual business segments, the carrying amounts of certain assets used jointly by two or more segments are allocated to the segments on a reasonable basis.

Segment liabilities include all operating liabilities and consist primarily of trade payables. Whilst the majority of the liabilities can be directly attributed to individual business segments, the carrying amounts of certain liabilities used jointly by two or more segments is allocated to the segments on a reasonable basis.

Inter-segment revenues, transactions, assets and liabilities are eliminated upon consolidation and reflected in the adjustment and eliminations column.

Revenue for the year ended 31 December 2025 in the United Arab Emirates and Sri Lanka amounted to BD 3,554,551 (2024: BD 3,495,621) and incurred loss for the 31 December 2025 amounted to BD 985,660 (2024: loss of BD 1,090,434). The remaining revenue and profit for the twelve-month period then ended is generated from the primary geographical segment in the Kingdom of Bahrain.

Gulf Hotels Group B.S.C.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

**31 SEGMENT REPORTING (continued)**

At 31 December 2025, total assets in the United Arab Emirates and Sri Lanka amounted to BD 24,674,881 (2024: BD 25,556,314) and total liabilities amounted to BD 945,456 (2024: BD 846,436). All remaining assets and liabilities arise from the primary geographical segment in the Kingdom of Bahrain.

The following table presents the details of segmental operating results for the year ended 31 December 2025 and 31 December 2024:

	<i>Hotel room operations</i>		<i>Food and beverages</i>		<i>Investment and other activities</i>		<i>Adjustments and eliminations</i>		<i>Consolidated</i>
